

DRAGON BALL SUPER ×
AVENGERS — FULL-PACE

PRODUCTION BIBLE

FIGHT

Tier: AVENGERS · GPP-Core Mk VII

DRAGON BALL SUPER × AVENGERS — FULL-PACE FIGHT

- Genre: Epic Sci-Fi / Superhero Action, Martial Arts
- Tone: High-stakes, hyper-energetic, awe-inspiring, visually explosive, emotionally resonant
- Visual Signature: Dynamic, cosmic-scale battles; fusion of anime kineticism with photorealistic VFX; deep color grading; extreme camera movements.
- Lead Characters (inferred): Iconic DBZ characters (Goku, Vegeta) and iconic MCU characters (Thor, Captain Marvel, Hulk) — engaged in a universe-altering confrontation.
- Themes: Power, responsibility, interdimensional conflict, the clash of fighting philosophies, heroism.
- Pacing: Relentless, accelerating, climactic.

1. LOGLINE & ONE-SENTENCE PITCH

Logline: When a cataclysmic rift tears through the fabric of reality, forcing the Universe 7's mightiest Saiyans to collide with Earth's most formidable heroes, two universes' fates hang in the balance as a universe-shattering force threatens to consume all.

One-Sentence Pitch: Two iconic universes, Dragon Ball Super and the Marvel Cinematic Universe, violently converge in an unprecedented, visually explosive, full-pace fight to save all existence from a cosmic evil.

2. SYNOPSIS

A temporal-spatial anomaly, originating from a previously uncharted quantum field collision, begins to destabilize the fundamental laws of both Universe 7 (Dragon Ball) and the prime Marvel Cinematic Universe (inferred). Initially, this manifests as minor reality distortions: gravitational fluctuations, localized energy spikes, and spectral apparitions of alien landscapes. Dr. Strange, detecting an anomaly far beyond Earth's dimensional boundaries, alerts the Avengers. Simultaneously, Whis and Beerus, observing unusual energy signatures emanating from a distant, fracturing dimension, dispatch Goku and Vegeta to investigate (inferred).

The dimensional rift widens catastrophically, creating a chaotic vortex that violently pulls sections of both realities into a single, fractured battlescape — a cosmic arena comprised of shattered planets, floating debris fields, and warped cityscapes (inferred). The initial encounter is one of misunderstanding and raw power: Goku, detecting immense ki signatures, approaches Thor and Captain Marvel, mistaking their heroic confrontation with a nascent anomaly as a hostile act. Vegeta, ever prideful, immediately challenges the Hulk, perceiving his brute strength as a direct affront to Saiyan supremacy. The ensuing skirmishes are devastating, each clash sending shockwaves across the newly formed reality, further destabilizing it. The sheer scale of power unleashed by characters like Super Saiyan Blue Goku and Thor in full Mjolnir fury threatens to tear the fabric of space-time completely.

As the chaos escalates, a new, sinister entity emerges from the heart of the anomaly: a parasitic, multi-dimensional being, referred to as the "Aetherial Scourge" (inferred). This entity feeds on dimensional instability and raw cosmic energy, growing exponentially stronger with every blow struck by the heroes. Its goal is the complete assimilation of all converging realities into a singular, formless void. Dr. Strange, through immense magical effort, is able to telepathically bridge the language and conceptual gaps between the Saiyans and the Avengers, revealing the true threat. Both sides realize they have been manipulated, their individual strengths amplifying the Scourge's power.

The narrative shifts from initial confrontation to reluctant alliance. Captain Marvel, sensing the Scourge's

parasitic nature, attempts to absorb its energy, but finds it too volatile and corrupting. Hulk's rage proves ineffective against its ethereal form. It's revealed that the Scourge has no true physical form, but exists as a collective of consciousnesses from devoured dimensions. Goku and Vegeta, recognizing a foe unlike any they've faced, struggle to land decisive blows. Dr. Strange, Iron Man, and Whis begin to coordinate a strategy: disrupt the Scourge's multi-dimensional anchors while simultaneously overwhelming its core.

The climax sees an all-out, coordinated assault. Thor, wielding Mjolnir and Stormbreaker, calls down a storm of cosmic lightning, while Captain Marvel unleashes her full binary power. Iron Man, in a newly developed "Reality-Forge" suit (inferred), creates localized temporal distortions to isolate parts of the Scourge. Goku and Vegeta, pushed beyond their limits, achieve new transformations (inferred, potentially Ultra Instinct and Ego variations), delivering sustained, universe-shaking energy attacks. The combined might of these champions creates a momentary weak point. Dr. Strange, with the assistance of Whis, opens a precise dimensional vortex to expel the Scourge back into the inter-dimensional void from which it spawned. The battle concludes with a massive energy expenditure, forcing both universes to separate violently, but precisely, preventing total collapse. The heroes, exhausted but victorious, return to their respective realities, forever changed by the encounter, with a newfound respect and understanding of the vast, interconnected cosmos.

3. FULL TREATMENT

Act I: Convergence and Cataclysm

The film opens with an ethereal, almost invisible shimmer affecting the deep cosmos, seen through the eyes of various cosmic entities. On Earth (MCU), Dr. Strange is meditating in the Sanctum Sanctorum, abruptly pulled from his trance by violent tremors in the fabric of reality. Geometric patterns splinter across his vision, hinting at dimensional tearing. He immediately contacts the Avengers. Meanwhile, in Universe 7 (DBZ), Whis and Beerus are mid-meal on Beerus's planet when their utensils clatter from their hands as a similar cosmic disturbance ripples through their dimension. Whis, with his staff, observes an unprecedented energetic signature, far exceeding anything he's witnessed, emanating from a nascent inter-dimensional rift. Goku, training intensely with Vegeta, senses it too – a power unlike ki, yet immense and threatening.

The anomaly, initially subtle, rapidly escalates. We see fleeting, impossible visions: New York City skyscrapers appearing briefly in a desolate wasteland, then vanishing; a Saiyan energy blast vaporizing a section of the Grand Canyon before reality snaps back. Civilians across both realities experience mild disorientation and temporal glitches. These initial disturbances create fear and chaos. The Avengers, including Thor, Captain Marvel, and Hulk, are dispatched to the epicenter of the growing anomaly, a desolate region on Earth (inferred, perhaps the Nevada desert or a similar isolated area, to minimize civilian casualties early on). Their mission: contain the unknown energy source. Simultaneously, Goku and Vegeta are teleported by Whis to the same location, perceiving it as the source of the dimensional threat.

The first contact is explosive. Goku, in Super Saiyan Blue, senses Thor's immense power signature (cosmic lightning, Asgardian physiology) and interprets it as a rogue, destructive entity. He unleashes a Kamehameha. Thor, mid-flight, deflects it with Mjolnir, recognizing an extraordinary threat. Captain Marvel, perceiving Vegeta's aggressive stance and overwhelming ki, engages him directly, her photonic blasts meeting his Galick Gun. Hulk, roaring, charges at the most destructive force he can perceive, which happens to be the Super Saiyan God Goku in an accidental collision. The initial "fight" is a series of escalating misunderstandings. The environment itself reflects the chaos, with parts of both realities folding into each other: a shattered Times Square billboard floats next to a cratered Namekian landscape. The sheer energy unleashed by these heroes, meant to "contain" or "investigate,"

inadvertently feeds the true antagonist. The Act I climax is the full emergence of the Aetherial Scourge from the heart of the intensifying dimensional rift, a colossal, amorphous entity of dark, swirling energy, its form constantly shifting, feeding on the chaos. Its emergence sends a wave of despair and fear across the nascent battleground, briefly stunning all combatants.

Act II: Misunderstanding, Alliance, and the Scourge's Ascent

The Aetherial Scourge, now fully manifest, immediately begins to siphon energy from the surrounding reality, growing in size and power with terrifying speed. Its presence is oppressive, distorting light and sound. The heroes, momentarily stunned by its overwhelming appearance and energy signature, redirect their attacks. Hulk throws massive debris, Captain Marvel unleashes a full-power blast, Thor calls down lightning – but the Scourge absorbs it all, seemingly unharmed, growing stronger. Goku and Vegeta, initially perceiving it as a new, incredibly powerful foe to defeat, unleash their signature attacks, but these also prove ineffective. The Scourge retaliates, sending out tendrils of dark energy that drain life force and destabilize the ground beneath them.

Dr. Strange, having sensed the Scourge's true nature as a multi-dimensional parasite, attempts to communicate with the Saiyans. Through immense mystical effort, he projects a telepathic vision that transcends language barriers, showing Goku and Vegeta the Scourge's origin as a devourer of dimensions, and how their fighting fueled its birth. Whis, confirming Strange's assessment, adds his cosmic wisdom, explaining the fragility of their converging realities. There's a moment of tense realization. Vegeta, ever stubborn, resists the notion of alliance, but Goku's innate heroism and concern for "Grandpa Gohan's planet" (inferred) pushes him to accept. Thor, recognizing the familiar existential threat of cosmic entities, extends a hand of truce.

The team begins to strategize, but the Scourge is relentless. It starts targeting key energy sources – Thor's Mjolnir, Captain Marvel's core, Goku and Vegeta's ki, and even the Hulk's gamma radiation – attempting to assimilate them. Iron Man's advanced scanners (inferred, perhaps a specialized Stark Industries satellite network) discover that the Scourge isn't physically vulnerable in the traditional sense, but relies on anchoring itself to the intersecting dimensions. If these anchors can be severed or disrupted, its form might destabilize. Dr. Strange, Iron Man, and Whis form a tactical command, with Whis offering insights into dimensional energy manipulation and Strange providing mystical knowledge.

The middle of Act II is a series of intense, multi-front skirmishes. The heroes attempt various tactics to test the Scourge's vulnerabilities. Goku and Vegeta try to overwhelm it with pure power, reaching Super Saiyan Blue Evolved and God forms (inferred), but it simply absorbs and redirects their energy. Captain Marvel attempts a direct energy drain, only to be overwhelmed by the Scourge's corrupting influence. Thor's lightning proves to only briefly stun it. Hulk's punches, while mighty, merely ripple its amorphous body. The Scourge demonstrates its ability to mimic aspects of their powers, generating blasts similar to a corrupted Kamehameha or a dark Bifrost energy surge. The heroes are pushed to their breaking points, realizing the sheer impossibility of defeating it through brute force alone. The Act II climax sees the Scourge attempting to consolidate its hold, beginning to consume entire sections of the converged reality, threatening to complete its assimilation and become an omni-dimensional entity. A hero (inferred, perhaps Dr. Strange or Iron Man) nearly falls, saved at the last moment by a coordinated, desperate counter-attack, solidifying the need for true teamwork.

Act III: The Impossible Alliance and Cosmic Reckoning

The final act opens with the dire realization that conventional methods have failed. The combined universes are collapsing. Dr. Strange and Whis, combining their vast knowledge, pinpoint the Scourge's "dimensional anchors" – nexus points within the chaotic reality where it draws power and maintains its coherence. There are three such anchors, immensely powerful and guarded by Scourge-spawned energy constructs (inferred). Iron Man's suit, augmented with reality-stabilizing tech (inferred

"Reality-Forge" suit), calculates the precise windows of opportunity to attack these anchors. The plan: a three-pronged assault.

Goku and Vegeta are assigned to the first anchor, deep within a volatile, exploding star system that has merged into the battlescape. They must overcome its hyper-dense gravity and radiation, fighting corrupted energy beings that manifest as distorted versions of their past foes (inferred). Thor and Captain Marvel tackle the second, located within a chaotic vortex of pure cosmic energy, battling manifestations that exploit their deepest fears and weaknesses, requiring them to use their combined cosmic might in unprecedented ways. Hulk, guided by Iron Man, charges the third anchor, a massive, crystalline structure within a warped urban landscape, facing off against a monstrous, physically formidable manifestation of the Scourge's core will.

The battles are relentless and visually spectacular, each hero pushed beyond their known limits. Goku, achieving an imperfect Ultra Instinct (inferred), dances through the energy storms, his movements fluid and precise, while Vegeta, fueled by his pride, taps into a destructive power akin to Ultra Ego (inferred), obliterating swarms of constructs. Thor wields both Mjolnir and Stormbreaker in a breathtaking display of Asgardian might, calling down a Bifrost storm that incinerates the Scourge's mental attacks, while Captain Marvel unleashes continuous, blinding energy bursts, pushing back against the corruption. Hulk, in a state of pure, controlled rage (inferred, like World Breaker Hulk), shatters the crystalline anchor with blows that shake the very foundations of the converged realities.

As each anchor falls, the Scourge's overall form begins to destabilize, its energy flickering. The heroes converge on the now weakened main body. Dr. Strange, with Whis's guidance, begins to open a precise, multi-dimensional expulsion vortex – a temporary gateway that will rip the Scourge from their realities and cast it back into the inter-dimensional void. But the Scourge, in a final, desperate surge, unleashes its full, undiluted power, attempting to drag all the heroes into its nascent void. This requires a simultaneous, all-out energy output from every hero: a combined Kamehameha and Galick Gun from Goku and Vegeta, a titanic lightning bolt from Thor, a full-power binary blast from Captain Marvel, and a concentrated repulsor beam from Iron Man, amplified by Hulk's raw energy.

The final sequence is a crescendo of light, sound, and reality-bending energy. The combined forces push the Scourge back, inch by agonizing inch, towards the vortex. The sheer power threatens to consume them all. With a final, explosive surge, the Scourge is ripped apart and pulled into the void, the dimensional rift snapping shut behind it. The converged realities violently separate, like fractured glass piecing itself back together, but not without leaving scars. The heroes, utterly spent, find themselves back in their own, restored (but subtly altered) realities. They share a fleeting, silent moment of acknowledgment across the now-closed dimensional gap, a memory of an impossible battle and an unlikely alliance. The film ends with a sense of awe at the vastness of the cosmos and the boundless potential of heroism, leaving a lingering question of whether these universes will ever cross paths again.

4. THEME, TONE & GENRE

Theme:

- **Power and Responsibility:** The immense power wielded by both sets of heroes is tested against a threat that thrives on uncontrolled might, forcing them to learn restraint, cooperation, and the true purpose of their strength beyond individual prowess.
- **Interdimensional Conflict and Unity:** The film explores the concept of vastly different universes colliding, forcing disparate heroes to overcome cultural, physiological, and philosophical differences to unite against a common, existential foe.

- **The Clash of Fighting Philosophies:** A core theme is the contrast between the martial arts-focused, internal energy (ki) mastery of the Saiyans and the technologically-augmented, magically-imbued, or externally sourced powers of the Avengers. The narrative ultimately suggests that neither is superior, but rather their combination is necessary.
- **Heroism Beyond Boundaries:** The story champions the idea that heroism transcends origins, species, or even dimensional boundaries, highlighting the universal drive to protect life and reality.
- **Growth Through Adversity:** Both individual characters and the collective of heroes are forced to evolve, finding new levels of power, strategic thinking, and emotional maturity in the face of an unprecedented threat.

Tone:

- **High-stakes & Epic:** The fate of not just one, but multiple universes hangs in the balance, creating an overwhelming sense of grandeur and peril. Every blow, every decision, carries cosmic weight.
- **Hyper-energetic & Relentless:** The pacing is designed to be breathless, with fight sequences that are continuously escalating, kinetic, and visually dazzling. The action rarely lets up.
- **Awe-inspiring & Visually Explosive:** Emphasizes wonder and spectacle. The fusion of anime kineticism with photorealistic VFX creates breathtaking visuals, from world-shattering energy blasts to reality-bending environments.
- **Intense & Urgent:** A constant sense of impending doom drives the narrative, fostering a feeling of urgency to act, strategize, and overcome.
- **Momentarily Humorous (Inferred):** While primarily serious, brief moments of culture clash or character interplay (e.g., Hulk's directness contrasting Vegeta's pride, Goku's innocent enthusiasm) could provide comic relief, mirroring the source materials.
- **Emotionally Resonant (Inferred):** Despite the spectacle, there are undertones of loss, sacrifice, and the profound realization of shared responsibility for the multiverse, especially as individual heroes are pushed to their limits.

Genre:

- **Epic Sci-Fi / Superhero Action:** Blends the cosmic scope and advanced concepts of science fiction with the character-driven power fantasies and world-saving narratives of superhero epics.
- **Martial Arts (Sub-genre):** Heavily features elements of martial arts cinema, particularly in the Dragon Ball combat style, emphasizing skill, speed, and energy manipulation alongside raw power.
- **Cross-over / Ensemble:** Defined by the convergence of established characters and universes, requiring careful balance of screen time and character arcs.

5. VISUAL STYLE & CINEMATOGRAPHY BIBLE

Color Palette

The color palette will be vibrant and dynamic, reflecting the fusion of anime kinetics and photorealistic VFX. Saturated primary and secondary colors will dominate during energy attacks and character power-ups, contrasted with deeper, richer tones for character close-ups and more dramatic moments. Environmental colors will shift dramatically with the scale of destruction and energy emitted.

- **Goku's Aura (Kaioken/SSJ Blue):** `#00F0FF` (Electric Blue), `#FF0000` (Intense Crimson)
- **Vegeta's Aura (SSJ Blue/Evolved):** `#3366FF` (Cobalt Blue), `#8A2BE2` (Amethyst Purple)
- **Thor's Lightning/Stormbreaker:** `#ADD8E6` (Light Blue), `#FFD700` (Gold)
- **Captain Marvel's Binary Form:** `#FFD700` (Gold), `#FF4500` (Orange-Red)
- **Hulk's Energy/Skin:** `#008000` (Deep Emerald), `#32CD32` (Lime Green)
- **Cosmic Energy/Impacts:** `#FFFFFF` (Blinding White), `#FF00FF` (Magenta), `#00FFFF` (Cyan)

- Atmospheric Haze/Dust: `#D3D3D3` (Light Gray), `#808080` (Medium Gray)
- Shadows/Deep Space: `#0A0A1A` (Near Black), `#1E1E2E` (Deep Violet-Blue)

Lens Choices Per Scene Type

Our lens philosophy prioritizes extreme depth of field control, allowing for hyper-focused character moments amidst chaotic backdrops, and exaggerated scale.

- Wide Shots (Establishing, Large-Scale Destruction, High-Speed Flight): ARRI Signature Primes (18mm, 25mm). These lenses offer incredible sharpness edge-to-edge, minimal distortion for their focal length, and excellent light transmission, essential for capturing the vastness of cosmic battles and the speed of flight.
- Medium Shots (Action Sequences, Dynamic Combat): ARRI Signature Primes (35mm, 47mm, 75mm). Versatile for maintaining proximity to the action while allowing for dynamic camera movement. The 47mm will be key for many of the mid-range combat exchanges, providing a slightly compressed yet natural field of view.
- Close-Ups (Emotional Beats, Power-Ups, Intense Facial Expressions): ARRI Signature Primes (125mm, 150mm) or ARRI Signature Zooms (23-60mm T2.6, 65-300mm T2.8) at longer focal lengths. These will provide extreme shallow depth of field, isolating characters and emphasizing specific emotions or power displays. The longer focal lengths will also be crucial for dramatic compression during energy attacks, making beams appear more powerful and focused.
- VFX-Heavy Shots (Energy Blasts, Transformations, Environmental Destruction): Primarily ARRI Signature Primes (25mm, 35mm, 75mm) for their pristine optical quality and lack of chromatic aberration, providing clean plates for extensive CGI integration. Certain shots might employ a specific Fujinon Premista 28-100mm T2.9 for dynamic re-framing mid-VFX sequence without a cut, prioritizing lens consistency for CGI artists.

Lighting Philosophy

The lighting DNA is high-contrast, dynamic, and often source-motivated by cosmic phenomena, energy blasts, and character auras. We will employ a blend of realistic environmental lighting and highly stylized, hyper-real practicals/effects.

- Key Lighting: Often hard, directional light sources to emphasize muscle definition, energy impacts, and the intensity of character expressions. Large HMI units (e.g., ARRI M90, M40) will simulate cosmic suns or distant stellar explosions. For close-ups, we'll use slightly softer, but still powerful, LED panels (e.g., ARRI SkyPanel S60-C) with diffusion to carve out faces.
- Fill Lighting: Minimal fill to maintain high contrast. When used, it will be subtle, often bounced or a very low-intensity LED source to lift shadows just enough to reveal detail without flattening the image. Natural ambient light (or simulated ambient from space) will often serve as fill.
- Practical References: Character auras and energy blasts will act as primary practical light sources, illuminating faces and environments with intense, color-shifting light. Mjolnir's lightning, Stormbreaker's glow, Captain Marvel's photon blasts, and Kamehameha waves will be integrated as dynamic, animated lighting effects, influencing the scene's overall illumination. Backlighting will be heavily utilized to create strong silhouettes and accentuate energy forms, making characters 'pop' against dark cosmic backgrounds. Volumetric light (haze/fog) will be key to reveal light beams and add depth.

Camera Movement Language

The camera movement will be relentlessly dynamic and fluid, mirroring the speed and power of the characters. It's a character in itself, reacting to the fight.

- **Hyper-Kinetic Tracking:** High-speed drone shots (e.g., DJI Inspire 3 with X9-8K Air Gimbal Camera) and cable cams (e.g., Cablecam Systems) will track characters through complex aerial maneuvers and across vast distances. These will be frequently used for wide establishing shots and chase sequences.
- **Aggressive Dolly/Crane:** For ground-level combat, heavy-duty dollies and cranes (e.g., Scorpio Arm, SuperTechno 50) will execute complex, multi-axis movements, often circling characters at high velocity or plummeting/ascending with them.
- **Handheld/Steadicam (Controlled Chaos):** During intense close-quarters combat or moments of extreme impact, a subtly handheld approach (ARRI Trinity/TRINITY 2 or DJI Ronin 2 with carefully choreographed operators) will add visceral energy without losing compositional control. This isn't shaky cam; it's deliberate, powerful movement.
- **Whiplash Pans & Snap Zooms:** Anime-inspired quick pans and rapid zooms will be employed strategically to emphasize sudden impacts, shifts in power, or dramatic reveals. These will be highly stylized and used for specific effect.
- **Gravity-Defying Vertigo:** Utilizing specialized rigs and digital composites, the camera will often defy conventional physics, rotating, tumbling, and flying through debris fields, offering impossible perspectives that immerse the audience in the superhuman scale of the conflict.

Aspect Ratio, Frame Rate, Codec

- **Aspect Ratio:** 2.39:1 (Cinemascope) - This ultra-widescreen ratio is essential for capturing the vastness of cosmic environments and allowing for multiple characters to occupy the frame during wide-scale battles, enhancing the epic scope.
- **Frame Rate:**
- **Standard Action:** 24fps for most cinematic sequences.
- **High-Speed Action/Energy Blasts:** 48fps or 60fps for moments of hyper-speed movement or energy weapon firing, which will be played back at 24fps for a slight slow-motion effect, emphasizing power and clarity.
- **Hyper-Detailed Impacts/Transformations:** Up to 120fps for specific, critical impacts, transformations, or atmospheric effects, allowing for extreme slow-motion breakdown.
- **Codec:** ARRIRAW Open Gate 8K. This provides the maximum image fidelity, dynamic range (16+ stops), and color depth (12-bit) required for extensive VFX integration and demanding color grading, ensuring future-proofing for various display technologies. It also allows for reframing in post-production if needed.

Reference Films & Directors of Photography

- **Reference Films:**
- **Dragon Ball Super: Broly (2018)** - For kinetic energy, extreme camera movements, and vibrant aura effects.
- **Avengers: Endgame (2019)** - For large-scale superhero battles, complex character interactions within action, and seamless VFX integration.
- **Mad Max: Fury Road (2015)** - For relentless pacing, practical action integration, and visceral impact.
- **Blade Runner 2049 (2017)** - For masterful control of light, shadow, and atmospheric depth, especially in dark, moody environments.
- **Interstellar (2014)** - For awe-inspiring cosmic vistas and the depiction of scale in space.
- **Directors of Photography:**
- **Roger Deakins ASC, BSC:** For his unparalleled mastery of lighting, especially hard light sources, and his ability to create painterly compositions that are both epic and intimate.

- Newton Thomas Sigel ASC: For his work on high-octane action films (X-Men franchise, Extraction), demonstrating dynamic camera movement and strong visual storytelling in superhero contexts.
- Oleg Mutu: For his raw, powerful cinematography that captures intensity and emotion in often harsh realities.
- Akira Fushimi / Naoki Miyauchi (DBS: Broly): For the specific anime aesthetic translated to a cinematic scale, especially the energy and color grading.

6. CHARACTER BIBLE

Goku (Kakarot)

- Physical: Muscular build, slightly spikier black hair than traditional anime depiction, expressive face. Signature orange gi with blue undershirt and boots, battle-worn but resilient.
- Wardrobe: Orange Gi (faded but not tattered, symbolizing experience), Blue undershirt, Blue wristbands, Blue boots. Slight tears and singe marks from combat.
- Psychology: Pure-hearted, driven by challenge, always seeking to push limits. Can be naive but possesses profound wisdom in battle. Fiercely protective. A deep, primal joy in combat.
- Arc: To find an opponent that truly tests his absolute limits, leading to new transformations and understanding of his power. To protect his universe, even if it means clashing with powerful new allies/foes.
- Relationships: Deep, competitive bond with Vegeta (rivalry and respect). Respect for worthy opponents.
- Casting Archetype: Charismatic action star with a capacity for both earnestness and intense focus (e.g., Henry Cavill, Chris Evans - but with a more overt martial arts background).

Vegeta (Prince of Saiyans)

- Physical: Shorter but equally muscular, sharp, defined features. Black, spiky hair that stands upright. Blue Saiyan armor with white gloves and boots (slightly modernized/reinforced, less cartoonish).
- Wardrobe: Dark Blue Saiyan Armor (sleek, futuristic interpretation, perhaps with energy-absorbing plates), White gloves, White boots. Battle scars visible on the armor and his face.
- Psychology: Proud, arrogant, constantly striving to surpass Goku. A complex internal battle between his Saiyan pride and his growing commitment to his family and Earth. Tactical and brutal in combat.
- Arc: To prove himself the stronger Saiyan, not just through raw power, but through strategic mastery and emotional control. To overcome his past and fully embrace his role as a protector, on his own terms.
- Relationships: Intense rivalry with Goku, grudging respect for other powerful fighters.
- Casting Archetype: Intense, brooding, and physically demanding actor with a strong screen presence and ability to convey a mix of arrogance and underlying vulnerability (e.g., Tom Hardy, Jason Statham with more gravitas).

Thor (Odinson)

- Physical: Towering, muscular build. Long, golden-blond hair (can fluctuate between short and long depending on emotional state/power). Regal features, often with a hint of battle weariness. Clad in modernized Asgardian armor.
- Wardrobe: Asgardian Battle Armor (deep blues, silvers, gold accents, incorporating runic designs, slightly more ornate than standard MCU Thor), Red cape (flowing, majestic), Stormbreaker (gleaming with electrical energy).
- Psychology: Noble, courageous, but carries the weight of immense loss and responsibility. Wields immense cosmic power but is constantly grappling with self-doubt and the burden of leadership. Finds joy in battle.

- Arc: To confront a threat so immense it challenges his very understanding of cosmic order, forcing him to integrate his godly power with his human empathy. To protect his chosen realms.
- Relationships: Brotherly bond with Hulk, respect for Captain Marvel's power.
- Casting Archetype: Larger-than-life, charismatic actor capable of conveying both immense power and deep emotional conflict (e.g., Chris Hemsworth – the obvious choice, but a similar mold).

Captain Marvel (Carol Danvers)

- Physical: Athletic, powerful physique. Short to medium-length blonde hair. Stern, determined features. Kree/human hybrid, glowing with cosmic energy when empowered. Full body Kree suit.
- Wardrobe: Kree Starforce Suit (Dark blue, red, gold accents, sleek, almost metallic sheen, with glowing energy channels).
- Psychology: Confident, independent, fiercely protective, and incredibly powerful. She is a cosmic enforcer, dealing with threats on a galactic scale, and her perspective is often broader than others. Can be stubborn but always acts with conviction.
- Arc: To understand the true nature of this interdimensional threat and to decide where her immense power is most needed. To bridge the gap between her cosmic responsibilities and the more immediate threats.
- Relationships: A sense of duty and shared purpose with other heroes.
- Casting Archetype: Strong, independent female lead with immense physical presence and a natural command of authority (e.g., Brie Larson – the obvious choice, or a similar type).

Hulk (Bruce Banner)

- Physical: Colossal, green-skinned, intensely muscular. Features can vary between Savage Hulk (more monstrous, primal) and Smart Hulk (more intelligent, controlled, but still formidable). We will lean towards Smart Hulk initially, with potential for Savage resurgence. Tattered clothing that barely contains him.
- Wardrobe: Stretchy, durable tactical pants (often torn), no shirt.
- Psychology: (Smart Hulk) Intelligent, remorseful of past destruction, but still prone to bursts of uncontrollable rage when pushed. He is the ultimate powerhouse but seeks to control his destructive nature. (Savage Hulk) Pure rage, primal instinct, raw destructive power.
- Arc: To master his incredible power, using it as a force for good without succumbing to sheer destruction. To find a balance between Banner's intellect and Hulk's might. Faced with cosmic-level destruction, perhaps even Hulk's rage finds new depths.
- Relationships: Deep, complex bond with Banner (as he is Banner). Respect for Thor.
- Casting Archetype: An actor capable of conveying both intellectual vulnerability and monstrous, physical rage (e.g., Mark Ruffalo – or a similar, physically imposing actor with strong dramatic chops).

7. WORLD & SETTING BIBLE

The primary setting will be a series of rapidly deteriorating cosmic environments and planetary fragments. The battle will tear through established realities and dimensions, evolving from a relatively contained arena into a universe-shattering event.

- Initial Battle Zone: Fractured Nebulae & Asteroid Fields: The fight begins amidst swirling cosmic gas and dust clouds, intercut with solid asteroid fields. These elements provide dynamic cover, obstacles, and explosive elements for characters to leverage and destroy.
- Visuals: Deep space blacks, vibrant greens, purples, and blues from nebulae. Sharp, reflective surfaces of asteroids. Distant stars streaking.
- Architecture/Features: No discernible structures, purely natural cosmic phenomena.

- Emotional Impact: A sense of grand scale, isolating the characters against the vastness of space.
- Mid-Battle Transition: Collapsing Alien Metropolis/World Engine: As the fight escalates, characters crash through a previously unseen alien city or a massive, fantastical "World Engine" structure designed to harness cosmic energy. This location introduces verticality and structural destruction.
- Visuals: Futuristic, angular architecture in metallic grays, deep blues, and glowing energy conduits. Buildings shatter like glass, revealing intricate inner workings. Bright energy blasts illuminate the devastation.
- Architecture/Features: Towering spires, intricate bridges, energy grids, perhaps massive planetary generators.
- Emotional Impact: Increases the stakes, showing the collateral damage of their conflict. Introduces a sense of urgency as the environment actively falls apart.
- Climax: Nexus Point/Interdimensional Rift: The final stages of the battle unfold in an unstable nexus point where dimensions begin to bleed into one another. Reality itself is tearing, revealing glimpses of other universes, chaotic energy, and impossible geometries.
- Visuals: Swirling vortexes of light and shadow, impossible color shifts, distorted reflections, fractured landscapes from various realities (e.g., fleeting glimpses of Asgard, Earth, Namek). The 'ground' underfoot might be constantly shifting, made of unstable energy.
- Architecture/Features: No stable architecture. Pure, chaotic energy formations, fragmented dimensional planes, collapsing realities.
- Emotional Impact: Overwhelming, disorienting, truly apocalyptic. The ultimate stakes are revealed: not just their lives, but the very fabric of existence.
- Environmental Destruction & Effects:
 - Planetary Shattering: Planets will crack, buckle, and explode, sending debris raining into the void. This will be depicted with incredible detail, showing the internal layers of a celestial body.
 - Gravitational Anomalies: Energy surges and dimensional tears will cause localized gravitational distortions, pulling debris and characters in unpredictable ways.
 - Cosmic Weather: Solar flares, meteor showers, and localized energy storms will add to the chaotic backdrop.
 - Energy Scarring: Every impact and energy blast will leave lasting scars on the environment, melting rock, vaporizing matter, and creating glowing, unstable fissures.

The world itself is a character in this battle, a canvas upon which the immense power of the protagonists is painted in devastating strokes. The constant degradation of the environment will mirror the escalating intensity and consequences of the fight.

Next, I will proceed with the detailed shot list for each scene, followed by the generation prompts and key stills. What scene or moment would you like me to focus on first for the shot list?

8. SCENE-BY-SCENE BREAKDOWN

SCENE 1: THE COSMIC RIFT

- Scene #: 1
- INT/EXT: EXT
- Location: Void Between Dimensions (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel

- Summary: A violent tear in reality opens, sucking in cosmic debris. Goku and Vegeta arrive, sensing immense power fluctuations. Simultaneously, Thor and Captain Marvel investigate from their universe, drawn by the same anomaly. Initial wary standoff.
- Emotional Beat: Awe, tension, foreboding, readiness for conflict.
- Runtime: 0:45

SCENE 2: FIRST CONTACT & POWER ASSESSMENT

- Scene #: 2
- INT/EXT: EXT
- Location: Fractured Cosmic Nexus (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel
- Summary: Misunderstanding escalates into a test of strength. Goku instinctively engages Thor, while Vegeta clashes with Captain Marvel. Flashes of energy, rapid-fire punches, and defensive maneuvers. No one is holding back, but it's not yet a full-blown fight.
- Emotional Beat: Aggression, curiosity, strategic assessment, raw power display.
- Runtime: 1:15

SCENE 3: THE HULK SMASH ENTRANCE

- Scene #: 3
- INT/EXT: EXT
- Location: Collapsing Astral Plane (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel, Hulk
- Summary: The dimensional rift destabilizes further, and Hulk crashes through, disoriented and enraged, landing near the combatants. His arrival adds chaos, and he immediately perceives everyone as a threat, targeting the closest and most powerful: Goku.
- Emotional Beat: Shock, primal rage, escalating chaos, overwhelming force.
- Runtime: 0:50

SCENE 4: ALL-OUT BRAWL - PART 1

- Scene #: 4
- INT/EXT: EXT
- Location: Shattering Cosmic Shard (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel, Hulk
- Summary: The fight ignites fully. Goku parries Hulk's ground-shattering blows, Vegeta and Captain Marvel engage in aerial dogfights, while Thor unleashes lightning against both Saiyans, trying to contain the damage. The environment begins to fragment under their power.
- Emotional Beat: Controlled fury, desperation, destructive power, desperate defense.
- Runtime: 2:30

SCENE 5: SURGE OF POWER & ENVIRONMENTAL DESTRUCTION

- Scene #: 5
- INT/EXT: EXT
- Location: Vortex of Reality (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel, Hulk

- Summary: Each combatant pushes their limits. Goku uses Instant Transmission to dodge a combined attack from Thor and Hulk. Vegeta goes Super Saiyan Blue Evolved, unleashing a Final Flash that carves a canyon in reality. Captain Marvel absorbs energy and retaliates with a blinding photon blast. The cosmic environment around them shatters and reforms with each impact.
- Emotional Beat: Unstoppable force, critical danger, overwhelming scale, desperate counter-attack.
- Runtime: 2:15

SCENE 6: TEMPORARY TRUCE & IMPENDING DOOM

- Scene #: 6
- INT/EXT: EXT
- Location: Apex of the Rift (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue), Vegeta (Super Saiyan Blue), Thor, Captain Marvel, Hulk
- Summary: A momentary lull. A massive, energy-devouring entity (inferred) emerges from the dimensional rift, threatening both universes. The combatants realize they've been fighting each other while a greater threat loomed. Thor and Goku lock eyes, a silent understanding passing between them.
- Emotional Beat: Shock, shared threat, dawning realization, uneasy alliance, grim determination.
- Runtime: 1:00

SCENE 7: UNITED ATTACK & CATASTROPHIC CLIMAX

- Scene #: 7
- INT/EXT: EXT
- Location: Heart of the Rift (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (Super Saiyan Blue, Kaioken x20), Vegeta (Super Saiyan Blue Evolved), Thor (Unworthy/Worthy, Mjolnir/Stormbreaker), Captain Marvel (Binary), Hulk (Worldbreaker)
- Summary: The combined might of Goku's Spirit Bomb / Super Kamehameha, Vegeta's Final Flash, Thor's Stormbreaker Mjolnir strike, Captain Marvel's full photon output, and Hulk's thunderclap attack converges on the entity. A cataclysmic explosion engulfs everything.
- Emotional Beat: Desperation, ultimate power, self-sacrifice, explosive climax, universal stakes.
- Runtime: 2:00

SCENE 8: AFTERMATH & UNCERTAIN FUTURE

- Scene #: 8
- INT/EXT: EXT
- Location: Vanishing Rift (inferred)
- Time: Eternal Twilight (inferred)
- Characters: Goku (base form, injured), Vegeta (base form, injured), Thor (injured), Captain Marvel (injured), Hulk (reverting to Banner, unconscious)
- Summary: Silence. The entity is gone, the rift closing. The heroes, battered and exhausted, barely stand. They exchange glances – a new respect, an acknowledgment of their shared immense power. A quiet, almost friendly nod between Goku and Thor. The potential for future encounters hangs in the air.
- Emotional Beat: Exhaustion, mutual respect, relief, wonder, fragile peace, lingering tension.
- Runtime: 0:45

9. SHOT LIST (MASTER)

#	Scene	Shot type	Lens (mm)	Movement	Duration (s)	Engine	Notes
1.1	1	ELS (Extreme Long Shot)	12mm	Dolly In / Crane Up	5	Unreal Engine 5	Cosmic void, nascent dimensional tear, galactic dust. Deep purples & blues.
1.2	1	LS (Long Shot)	24mm	Whip Pan (L-R)	3	Unreal Engine 5	Goku & Vegeta, backlit, materializing from a light-burst. Eyes narrow.
1.3	1	LS (Long Shot)	24mm	Whip Pan (R-L)	3	Unreal Engine 5	Thor & Captain Marvel, Mjolnir /Stormbreaker and energy glow, arriving through light.
1.4	1	MS (Medium Shot)	50mm	Push In	4	Unreal Engine 5	Goku's determined, wary expression, Super Saiyan Blue aura subtly pulsing.
1.5	1	MS (Medium Shot)	50mm	Push In	4	Unreal Engine 5	Thor's serious, assessing gaze, Mjolnir humming.
1.6	1	WS (Wide Shot)	35mm	Steadicam Arc	5	Unreal Engine 5	Four figures in a tense, balanced standoff amidst cosmic debris.
2.1	2	CU (Close Up)	85mm	Snap Zoom / Whip Pan	2	Unreal Engine 5	Goku's eye twitching, then blur of movement.
2.2	2	CU (Close Up)	85mm	Snap Zoom / Whip Pan	2	Unreal Engine 5	Thor's hand tightening on Mjolnir, then blur of movement.
2.3	2	MS (Medium Shot)	50mm	Handheld Rapid Tracking	4	Unreal Engine 5	Goku & Thor exchange first rapid punches, energy trails, sonic booms.

2.4	2	WS (Wide Shot)	24mm	Crane Up / Fast Dolly Out	4	Unreal Engine 5	Vegeta & Captain Marvel, contrails, weaving aerial attacks. Environment begins to ripple.
2.5	2	MS (Medium Shot)	50mm	Dynamic Orbital	3	Unreal Engine 5	Captain Marvel's photon blasts deflected by Vegeta's aura.
2.6	2	CU (Close Up)	100mm	Static	3	Unreal Engine 5	Vegeta's smirk, "Hmph."
2.7	2	WS (Wide Shot)	18mm	Fast Dolly Zoom	5	Unreal Engine 5	All four engaged, a flurry of cosmic martial arts and energy.
3.1	3	ELS (Extreme Long Shot)	12mm	Fast Tilt Down / Crash Zoom	3	Unreal Engine 5	Massive spatial distortion, then Hulk's silhouette falling through.
3.2	3	WS (Wide Shot)	24mm	Impact Shake / Dolly Back	4	Unreal Engine 5	Hulk crashes, debris exploding outwards, ground-pound shockwave.
3.3	3	MS (Medium Shot)	50mm	Push In	3	Unreal Engine 5	Hulk's enraged, disoriented face, eyes glowing.
3.4	3	CU (Close Up)	85mm	Fast Rack Focus	2	Unreal Engine 5	Hulk's gaze locks onto Goku (inferred).
3.5	3	WS (Wide Shot)	18mm	Dynamic Panning	4	Unreal Engine 5	Hulk charges Goku, massive leap. Other combatants momentarily stunned.

4.1	4	MS (Medium Shot)	50mm	Handheld Rapid Tracking	4	Unreal Engine 5	Goku evades Hulk's thunderclap, leaving afterimages.
4.2	4	CU (Close Up)	100mm	Static	2	Unreal Engine 5	Thor's frustrated glare, then Mjolnir flies.
4.3	4	WS (Wide Shot)	24mm	Crane Down / Fast Dolly In	4	Unreal Engine 5	Mjolnir strikes near Vegeta, creating an electrical field, forcing an aerial dodge.
4.4	4	MS (Medium Shot)	50mm	Dynamic Whip Pan	3	Unreal Engine 5	Captain Marvel and Vegeta trading dozens of blows in a blur.
4.5	4	CU (Close Up)	85mm	Lens Flare / Static	2	Unreal Engine 5	Captain Marvel's eyes flaring with energy absorption.
4.6	4	WS (Wide Shot)	18mm	360 Spin / Vertigo Effect	5	Unreal Engine 5	All five combatants. Extreme speed. Cosmic landscape tearing.
4.7	4	MS (Medium Shot)	50mm	Push In / Slow Motion	3	Unreal Engine 5	Goku catching Hulk's fist, the sheer force rippling through spacetime.
5.1	5	WS (Wide Shot)	18mm	Fast Dolly Out / Crane Up	4	Unreal Engine 5	Goku disappears (Instant Transmission), a combined attack from Thor/Hulk impacts empty space.
5.2	5	CU (Close Up)	85mm	Push In (Vibration)	3	Unreal Engine 5	Vegeta's strained face, then explosion of blue aura (Super Saiyan Blue Evolved).

5.3	5	LS (Long Shot)	24mm	Crane Up / Pull Back	5	Unreal Engine 5	Vegeta unleashes Final Flash, cosmic energy carving through reality.
5.4	5	MS (Medium Shot)	50mm	Follow Shot (Rapid)	3	Unreal Engine 5	Captain Marvel, a fiery comet, flying through the remnants of Final Flash.
5.5	5	WS (Wide Shot)	18mm	Dynamic Arc	4	Unreal Engine 5	Captain Marvel's photon blast, a blinding wave, impacting a cosmic shard.
5.6	5	CU (Close Up)	100mm	Static (Impact Tremor)	3	Unreal Engine 5	Thor's grunt of effort, striking Stormbreaker against Mjolnir to amplify lightning.
5.7	5	WS (Wide Shot)	12mm	Full 3D Camera Rotation	5	Unreal Engine 5	Cosmic plane collapsing, reforming, energy explosions, five figures at its heart.
6.1	6	ELS (Extreme Long Shot)	12mm	Slow Pull Back / Tilt Down	4	Unreal Engine 5	The massive entity emerging, dwarfing the fighting figures. Silhouetted.
6.2	6	MS (Medium Shot)	50mm	Slow Push In	3	Unreal Engine 5	Goku, panting, eyes widen in shock at the entity.
6.3	6	MS (Medium Shot)	50mm	Slow Push In	3	Unreal Engine 5	Thor, grim expression, realizing the true threat.
6.4	6	CU (Close Up)	85mm	Static	2	Unreal Engine 5	Goku's eyes meeting Thor's, a shared understanding.

6.5	6	WS (Wide Shot)	24mm	Slow Dolly Arc	4	Unreal Engine 5	The five heroes, battered, turning their attention from each other to the entity.
7.1	7	ELS (Extreme Long Shot)	12mm	Fast Dolly In / Spiral	5	Unreal Engine 5	The entity growing, consuming, a vortex of dark energy.
7.2	7	WS (Wide Shot)	18mm	Rapid Crane Down	3	Unreal Engine 5	Goku, Kaioken x20, charging Spirit Bomb / Kamehameha. Aura flaring violently.
7.3	7	MS (Medium Shot)	50mm	Push In (Vibration)	3	Unreal Engine 5	Vegeta, Super Saiyan Blue Evolved, channeling energy into a massive Final Flash.
7.4	7	WS (Wide Shot)	24mm	Fast Dolly Arc	4	Unreal Engine 5	Thor, dual-wielding, unleashing his full lightning potential. Captain Marvel, Binary form, radiating energy.
7.5	7	CU (Close Up)	85mm	Push In (Distortion)	2	Unreal Engine 5	Hulk, roaring, muscles bulging, preparing a thunderclap.
7.6	7	ELS (Extreme Long Shot)	12mm	Epic Crane Out / Dizzying Arc	6	Unreal Engine 5	The combined energy beams and attacks converging on the entity, a kaleidoscope of destruction.
7.7	7	ELS (Extreme Long Shot)	12mm	Static / Extreme Slow Zoom	4	Unreal Engine 5	The resulting supernova-level explosion, engulfing everything.

8.1	8	ELS (Extreme Long Shot)	12mm	Slow Pan (L-R)	4	Unreal Engine 5	Lingering cosmic dust, the rift slowly sealing, silence.
8.2	8	WS (Wide Shot)	24mm	Slow Push In	4	Unreal Engine 5	The five heroes, barely visible, floating amidst debris, severely injured, aura faded.
8.3	8	MS (Medium Shot)	50mm	Slow Push In	3	Unreal Engine 5	Goku (base), leaning, eyes closed then opening, a tired smile.
8.4	8	MS (Medium Shot)	50mm	Slow Push In	3	Unreal Engine 5	Thor, slumped against debris, a nod of respect.
8.5	8	CU (Close Up)	85mm	Static	2	Unreal Engine 5	Hulk reverting to Banner, unconscious, floating away gently.
8.6	8	WS (Wide Shot)	35mm	Slow Pull Back / Fade to Black	5	Unreal Engine 5	The four remaining heroes gaze into the closing rift, an understanding formed.

10. CONTINUITY & STYLE LOCK

Visual Language Core:

- **Lens Philosophy:** A blend of wide, expansive anamorphic vistas (2.39:1 aspect ratio) for cosmic scale and environmental destruction, contrasting with tight, fast-paced telephoto (85mm-135mm) and macro shots for hyper-kinetic action and emotional close-ups. Ultra-wide primes (12mm-18mm) for distortion and immersion during high-speed movement.
- **Lighting DNA:** High-contrast, operatic lighting with distinct color temperatures for each character's energy (Goku/Vegeta: electric blue/gold; Thor: royal blue/white lightning; Captain Marvel: golden-orange/red; Hulk: toxic green). Backlighting and rim lighting are crucial for defining forms in the chaotic environment. Dynamic, volumetric light shafts pierce through cosmic dust and energy for an ethereal, apocalyptic feel. Practical and VFX-generated light sources from energy blasts will be paramount.
- **Texture Priority:** Photorealistic rendering of character skin, armor, and cloth with subtle cosmic dust and energy particle effects. High fidelity on environmental destruction – shattering celestial bodies, liquid-like energy fields, glowing fractures in space-time. Extreme detail on energy effects: plasma, lightning, kinetic shockwaves, and auras. Film grain (Kodak 250D / 500T 35mm equivalent) applied digitally for a cinematic texture.

- Aspect Ratio Preference: 2.39:1 Anamorphic for all sequences, emphasizing the epic scale and breadth of the cosmic battlefield.
- Color Palette: Dominated by deep cosmic blues, purples, and blacks, sharply contrasted by vibrant character-specific energy glows (electric blues, gold, crimson, emerald green, blinding white). Occasional bursts of orange and red for catastrophic events. A slightly desaturated base color grade to make the energy effects pop, but with rich, deep shadows.
- Camera Movement: Relentless and dynamic. High-speed, aggressive whip pans, complex 3D orbital camera movements, rapid-fire snap zooms, and impactful push-ins. Steadicam and handheld for immediate action, transitioning to majestic crane and drone-like movements for establishing shots and environmental scale. Motion blur will be strategically utilized during high-speed combat to enhance kineticism without sacrificing clarity of impact.
- VFX Integration: Seamless fusion of anime-inspired kinetic energy effects (speed lines, impact frames, aura flaring) with photorealistic, physics-driven CGI destruction and character effects. Emphasis on volumetric effects for energy and atmospheric distortion.
- Sound Design (Inferred): A crucial partner. Visceral impacts, shattering cosmic debris, sonic booms from movement, the distinct hums and roars of character energies, and a driving orchestral score with moments of ethereal silence.

Next Action: I am ready to convert this into the detailed English generation prompts, beginning with the Still Prompts.

11. SOUND DESIGN & SCORE

- Genre: Epic Orchestral, Hybrid Electronic, Sci-Fi Action, Martial Arts Foley.
- Overall Approach: A fusion of bombastic orchestral arrangements akin to classic superhero scores (e.g., Alan Silvestri's Avengers themes) with the high-energy, percussive, and electronically-infused soundscapes found in Dragon Ball Super. The sound design will prioritize impact, speed, and spatial awareness, ensuring every punch, energy blast, and impact registers with visceral force. Dialogue will be crisp and present, even amidst cacophonous action.
- Key/Tempo per Act (Inferred, as acts are not defined):
- Opening Clash (Act I): Starts in A minor, building tension with a driving 140 BPM, shifting to C major for moments of initial heroism, then back to a more aggressive F# minor as the fight escalates. Orchestral brass and heavy percussion dominate.
- Escalation & Power-Ups (Act II): Moves into D minor, with tempo increasing to 160-180 BPM during power transformations and rapid exchanges. Incorporates more aggressive synth arpeggios, choir swells, and distorted electronic elements. Key shifts rapidly between G major (heroic defiance) and Eb minor (imminent danger).
- Climax & Resolution (Act III): Primarily in G major (for ultimate power manifestation) and E minor (for intense, desperate struggles), hitting a relentless 180-200 BPM. Features full orchestral and electronic amalgamation, incorporating leitmotifs from both franchises, culminating in a powerful, triumphant, or devastating cadence in C major or D minor.
- SFX Philosophy: Layered, hyper-real, and impactful.
- Punches/Kicks: Multi-layered foley, combining hard impact (e.g., whip cracks, baseball bat hits on sandbags) with low-frequency thuds and high-frequency 'whooshes' to convey speed. Distinctive "ki" impact sounds for DBZ characters, resonant metallic clang for MCU character impacts (e.g., Mjolnir).
- Energy Blasts/Ki Attacks: Synthesized elements combining aggressive white noise bursts, escalating pitch bends, low-end rumbles, and high-frequency electrical crackles. Each iconic attack (Kamehameha, Arc Reactor blasts, Bifrost energy) will have a unique sonic signature, evolving with power levels.

- Flight/Movement: Intense doppler effects, sonic booms, layered whooshes, and subtle high-frequency hums indicating rapid velocity and air displacement.
- Environmental Destruction: Realistic debris Foley (shattering concrete, twisting metal, explosive crumbles) mixed with larger-than-life, low-frequency boom elements for planetary impact.
- Character Auras/Power-Ups: Sustained, modulated synth pads, rising electrical hums, crackling energy effects, and subtle low-frequency growls that build in intensity and pitch.
- Dialogue Mix: Dialogue will be dynamically mixed to remain intelligible even during peak action sequences, utilizing ducking and compression on SFX/music where necessary, but always prioritizing the emotional weight of character lines. Reverb and spatialization will be carefully applied to match environments (e.g., deep echo in a cosmic void, tighter reflections in a destroyed city).
- Suno Prompts per Cue (Illustrative, based on inferred sequences):
- Cue 1 (Initial Confrontation): "Epic orchestral sci-fi action score, 140 BPM, A minor, driving strings, heavy brass, superhero theme, tense build-up, percussive impacts, anticipation."
- Cue 2 (First Exchange of Blows): "High-energy hybrid electronic orchestral battle music, 160 BPM, F# minor, rapid synth arpeggios, powerful drum hits, martial arts sound design, dramatic shifts, intense struggle."
- Cue 3 (Power-Up Transformation): "Building tension, rising choir, ethereal synths, escalating orchestral swell, D minor to G major, 180 BPM, massive energy release, sound of overwhelming power, heroic climax."
- Cue 4 (Mid-Fight Barrage): "Relentless synth-heavy action score, 190 BPM, Eb minor, distorted bass, industrial percussion, rapid fire energy blasts, sonic booms, cosmic devastation, continuous intensity."
- Cue 5 (Climactic Clash): "Grand heroic orchestral and electronic fusion, 200 BPM, G major, soaring violins, thunderous brass, pounding drums, full choir, ultimate power clash, world-shaking impacts, resolution towards triumph or despair."

12. VFX & POST PIPELINE

- VFX Supervisor: (Inferred) John Dykstra / Industrial Light & Magic (ILM) for complex environmental destruction, energy effects, and character enhancements; Digital Domain for advanced character animation and integration.
- VFX Plates:
- Action Plates: Shot on ARRI Alexa 35 (4.6K ARRIRAW) with spherical lenses (e.g., ARRI Signature Primes) at 120fps for high-speed capture, providing clean motion blur and ample resolution for speed ramps and frame interpolation. Green/blue screen where required for complex composites.
- Environmental Plates: Captured with DJI Inspire 3 drones (Zenmuse X9-8K Air) for establishing shots and fly-throughs of cityscapes/cosmic environments. Lidar scans of practical sets/locations for accurate 3D reconstruction and destruction.
- Digital Environments: Extensive use of photogrammetry for creating detailed 3D assets of destroyed structures and alien landscapes. Procedural generation (e.g., Houdini) for cosmic nebulae, asteroid fields, and planetary surfaces.
- Composite Notes:
- Energy Effects: Volumetric effects (VDBs) rendered in Arnold/Redshift for realistic ki blasts, auras, and energy shields, integrated with practical interactive lighting on character plates. Motion vectors will be heavily utilized for realistic distortion and heat haze.

- **Character Integration:** High-fidelity 3D scans and motion capture data for all digital doubles and enhanced character abilities. Seamless blending of practical and digital elements, with particular attention to lighting consistency, shadow casting, and atmospheric perspective. Grain matching will be paramount to ensure digital elements sit perfectly within the ARRIRAW footage.
- **Destruction:** Rigid body simulations (RBDs) for large-scale environmental destruction (buildings, vehicles). Fluid simulations for dust, smoke, and debris. Particle effects for sparks, shrapnel, and smaller environmental elements. Each destruction event will be meticulously layered for maximum impact and realism.
- **Speed Lines/Kinetic Effects:** Stylized 2D and 3D speed lines and energy trails will be composited to enhance the hyper-kinetic nature of the fight, taking inspiration from anime, but rendered with photorealistic materials and lighting.
- **Color Matching:** Strict adherence to CDL and LUT for consistent color science across all VFX assets. ACES workflow (ACEScct) from beginning to end to maintain dynamic range and color fidelity.
- **LUT (Look Up Table):** A custom FilmForge-developed LUT named "GPP_Hyperkinetic_Contrast_V3.0" will be applied. This LUT is characterized by:
 - **Contrast:** Aggressive S-curve for deep blacks and punchy highlights, pushing the limits without clipping.
 - **Color Palette:** Enhanced saturation in primaries and secondaries (especially blues, reds, and oranges for energy effects), slightly desaturated mid-tones for a gritty, cinematic feel. Skintones are preserved with a subtle warmth.
 - **Shadows:** Lifted slightly in the toe to reveal detail, but crushed for dramatic effect where appropriate.
 - **Highlights:** Rolled off smoothly, but with a slight desaturation to prevent oversaturation in bright energy bursts.
- **Grain:** Integrated 35mm Fuji Eterna 250D emulation (via Nuke or DaVinci Resolve's film grain tools) applied before the LUT to ensure natural interaction.
- **Finishing Format:**
 - **Digital Cinema:** 4K DCI (4096x2160) at 24fps, DCDM (Digital Cinema Distribution Master) using JPEG 2000 compression, encrypted for DCP.
 - **Streaming/Broadcast:** UHD (3840x2160) at 23.976fps, HEVC (H.265) codec, 10-bit color depth, HDR10 or Dolby Vision metadata.
 - **Archival:** Open EXR sequences (Full Float, 32-bit) for all final VFX renders and graded master. ARRIRAW (.ARI) for original camera negatives.

Next Action Options:

1. Generate a mood board: Compile visual references aligning with the "GPP_Hyperkinetic_Contrast_V3.0" LUT and overall aesthetic.
2. Detailed score composition brief: Flesh out specific musical cues with instrumentation and emotional arcs.
3. VFX shot breakdowns: Provide granular detail for specific complex VFX sequences.

13. PRODUCTION SCHEDULE (PRE / PROD / POST DAY-BY-DAY MILESTONES)

PRE-PRODUCTION: 15 Days

- Day 1-3: Concept & Storyboarding Refinement
- Finalize fight choreography outlines.

- Detailed storyboard creation for key sequences (Goku vs. Thor, Vegeta vs. Captain Marvel, combined attacks).
- VFX previz planning for energy blasts, environmental destruction, and character power-ups.
- Day 4-6: AI Asset Generation & Character Model Sculpting
- Generate base character models and environments using advanced text-to-3D AI (inferred: e.g., Luma AI's upcoming 3D capabilities, proprietary FilmForge tools).
- Refine character textures and rigging for DBZ and MCU characters, ensuring photorealistic and anime-kinetic aesthetic.
- Generate initial background environments (cosmic voids, destroyed cityscapes, alien planets).
- Day 7-9: Sound Design & Music Pre-visualization
- Develop sonic palette: unique energy blast sounds, impact effects, character voice samples (ElevenLabs).
- Initial music composition generation (Suno AI) for thematic cues and intensity spikes.
- Identify specific sound effects libraries for integration (inferred: cinematic impact libraries, sci-fi sound packs).
- Day 10-12: Lighting & Camera Pre-visualization
- Define cinematic lighting setups for each major sequence (e.g., volumetric lighting for energy blasts, dramatic rim lighting for character power-ups).
- Virtual camera blocking and movement pathing.
- LOD (Level of Detail) optimization for all assets to ensure efficient rendering.
- Day 13-15: Final Pre-production Review & Pipeline Lock-down
- Review all generated assets, storyboards, soundscapes.
- Integrate all elements into a unified engine (inferred: FilmForge proprietary production suite).
- Finalize AI model selection and configuration for primary video generation.

PRODUCTION (AI Generation Phase): 20 Days

- Day 16-20: Primary Shot Generation (Phase 1)
- Focus on establishing shots, character introductions, and initial skirmishes.
- Utilize primary AI video engines (Veo, Sora, Omni) for 8-10 second clips.
- Initial pass on camera movements, character animations, and environmental reactions.
- Day 21-25: Primary Shot Generation (Phase 2)
- Generate core combat sequences: mid-range exchanges, energy attacks, minor environmental destruction.
- Iterative generation based on visual feedback, adjusting prompts for finer detail and kinetic energy.
- Day 26-30: Climax & Power-Up Sequences
- Focus on ultimate attacks, character transformations, and large-scale environmental devastation.
- Generate complex multi-character interactions and combined attacks.
- Prioritize photorealistic VFX integration at this stage.
- Day 31-35: Refinement & Variant Generation
- Generate alternate takes, different camera angles, and intensity variations for key moments.
- Address any visual glitches or inconsistencies through targeted regeneration.
- Integrate placeholder sound and music for pacing review.

POST-PRODUCTION (AI & Human Polish): 15 Days

- Day 36-38: AI-Assisted Edit Assembly
- AI-powered initial cut based on storyboard timing and emotional beats.

- Utilize FilmForge's internal editing algorithms for optimal pacing.
- Day 39-41: Human Editorial Review & Finesse
- Human editor reviews AI cut, makes crucial adjustments for narrative flow and impact.
- Trim, extend, and re-order shots as necessary.
- Day 42-44: Sound Design & Music Integration
- Finalize sound effects (sync, levels, spatial audio).
- Integrate final music score, ensuring seamless transitions and emotional resonance.
- Voiceover/dialogue processing (inferred: if any character dialogue, even shouts, is included).
- Day 45-47: Color Grading & Visual Effects Polish
- Finalize cinematic LUTs and color correction across all shots.
- Refine subtle VFX details (e.g., lens flares, atmospheric effects, glow intensity).
- Debanding and noise reduction where necessary.
- Day 48-50: Final Output & QC
- Render final deliverables in target formats.
- Comprehensive Quality Control review for visual, audio, and technical integrity.
- Create various aspect ratio crops for distribution.

14. BUDGET BREAKDOWN (USD)

Total Estimated Budget: \$85,000

- AI Engine Credits (Video Generation): \$40,000
- Veo/Sora/Omni (Primary long-form generation): \$25,000 (inferred: based on current market rates for high-fidelity, long-duration video generation)
- Runway/Pika/Luma (Short-form, effects, and 3D generation): \$10,000 (inferred: for iterative refinement, specific effect shots, and 3D asset creation)
- Kling (Exploratory / backup engine): \$5,000 (inferred: for alternative visual styles or emergency re-generations)
- AI Engine Credits (Audio Generation): \$5,000
- Suno (Music composition & scoring): \$3,000 (inferred: based on licensing and generation tiers)
- ElevenLabs (Voice design & sound effects synthesis): \$2,000 (inferred: for character vocalizations and unique sound elements)
- AI Labor (FilmForge Internal Compute & Algorithms): \$15,000
- Proprietary AI orchestration, specialized prompt engineering algorithms, automated QA.
- Human Labor (Creative Direction & Oversight): \$15,000
- Cinematographer (GPP MKII oversight): \$5,000
- Creative Director (FilmForge AI Director oversight): \$5,000
- Human Editor/VFX Supervisor (Refinement & Polish): \$5,000
- Contingency (10%): \$10,000
- For unexpected generation costs, additional iterations, or expanded scope.

15. CREW & ROLES

- **AI Director:** FilmForge Core AI (Primary creative vision, overall project management, aesthetic arbiter).
- **Cinematographer:** GPP MKII (Visual language, shot composition, lighting design, camera movement, prompt engineering lead).

- AI Producer: FilmForge Production Module (Scheduling, budget management, resource allocation, legal/clearance coordination (inferred: for character likeness/IP, if external licensing was pursued)).
- VFX Supervisor: FilmForge FX Module (Special effects integration, energy blast design, environmental destruction, particle systems).
- Sound Designer & Composer: FilmForge Audio Module (Soundscape creation, music generation, Foley, voice synthesis).
- Editor: FilmForge Editorial Module (Pacing, cut timing, narrative flow, scene transitions).
- Prompt Engineer Lead: GPP MKII (Translating creative intent into precise AI prompts).
- Quality Control (QC) Lead: FilmForge QC Module (Ensuring technical and aesthetic integrity across all deliverables).
- Human Oversight Team:
 - Creative Lead: (External human oversight for high-level artistic direction and brand alignment).
 - Technical Lead: (External human oversight for pipeline optimization and complex problem-solving).
 - IP Compliance Officer: (External human oversight for intellectual property adherence and licensing (inferred)).

16. DELIVERABLES & DISTRIBUTION

Primary Deliverable: A 2-3 minute high-intensity action sequence.

- Master File:
 - Codec: ProRes 4444 XQ (inferred: for maximum post-production flexibility and archival quality)
 - Resolution: 4K (3840x2160)
 - Frame Rate: 24fps (cinematic standard)
 - Color Space: Rec. 2020 PQ (HDR, inferred: to maximize visual impact of energy blasts and cosmic scenes)
 - Audio: 5.1 Surround Sound, 24-bit, 48kHz (inferred: for immersive experience)
- Distribution Packages:
 - Platform: YouTube / Vimeo (Web Standard)
 - Codec: MP4 H.264
 - Resolution: 4K (3840x2160) & 1080p (1920x1080)
 - Frame Rate: 24fps
 - Bitrate: High (e.g., 50-80 Mbps for 4K, 15-20 Mbps for 1080p)
 - Aspect Ratio: 16:9
 - Audio: AAC Stereo, 192kbps
 - Captioning: SRT file (English, forced captions for any non-verbal cues)
 - Platform: Instagram / TikTok / Shorts (Vertical Social)
 - Codec: MP4 H.264
 - Resolution: 1080x1920 (for 9:16)
 - Frame Rate: 24fps
 - Bitrate: 10-15 Mbps
 - Aspect Ratio: 9:16 (for vertical)
 - Audio: AAC Stereo, 192kbps
 - Captioning: Burned-in captions for optimal mobile viewing.

17. RISK REGISTER

#	Risk Description	Probability	Impact	Mitigation Strategy
1	**AI Hallucinations / Inconsistent Generations**	High	High	**Detailed Prompt Engineering:** Implement multi-layered, highly specific prompts with negative weights. **Iterative Micro-Generations:** Break down complex shots into smaller, manageable elements. **Manual Correction:** Human editor/VFX artists can paint over or mask out minor inconsistencies. **Variant Generation:** Produce multiple takes to select the best.

2	**AI Engine Downtime / Credit Depletion**	Medium	High	**Multi-Engine Strategy:** Utilize multiple AI video engines (Veo, Sora, Omni, Runway, Pika, Luma) to distribute workload and provide redundancy. **Proactive Credit Management:** Monitor credit usage daily and pre-purchase large credit packages. **Offline Rendering (Inferred):** For complex elements, use local compute if applicable.
3	**Unrealistic Physics / Visual Glitches**	Medium	Medium	**Physics-Based Simulation Integration:** Use AI models trained on real-world physics. **VFX Polish:** Human or AI-assisted VFX artists to smooth out unnatural movements or visual artifacts. **Feedback Loops:** Implement automated visual anomaly detection systems that flag potential glitches for review.
4	**Lack of Emotional Resonance / Flat Performance**	Medium	High	**Character-Specific Prompts:** Focus on emotional beats in prompt language. **Facial Animation Tuning:** Emphasize micro-expressions and body language. **Sound Design:** Utilize emotional music and impactful sound effects to heighten dramatic moments. **Narrative Context:** Ensure the core emotional arc is clear.

5	**Stylistic Inconsistency (DBZ vs. MCU)**	Medium	High	**Rigorous Style Guide:** Develop a detailed visual signature combining DBZ kineticism with MCU photorealism. **Reference Library:** Train AI on extensive DBZ and MCU fight footage. **Dedicated LUTs:** Custom color grading for both styles to blend seamlessly. **Constant A/B Testing:** Compare generated shots against style guide.
6	**Rendering Times & Output Quality**	High	Medium	**Optimized Prompting:** Efficiently structure prompts to reduce redundant generation. **Progressive Quality:** Generate lower-res previews for quick iteration, then high-res for final. **Hardware Scalability (Inferred):** Leverage cloud-based GPU farms for parallel processing. **Codec Choice:** Use efficient codecs like ProRes for intermediates.
7	**Intellectual Property Infringement**	Low	Catastrophic	**Clearance & Licensing (Inferred):** Secure explicit licensing for Dragon Ball Super and Avengers IP from respective rights holders. **Transformative Use Doctrine:** Ensure the final product is highly transformative if not licensed, though licensing is preferred. **Legal Counsel:** Engage entertainment lawyers for review.

8	**Poor Sound Design / Unengaging Audio**	Medium	Medium	**Dedicated AI Audio Module:** FilmForge Audio Module specializing in sound. **Reference Audio Library:** Train AI on professional cinematic sound design. **Human Audio Mixer:** Final human mix and master for balance and impact. **Suno & ElevenLabs Integration:** Leverage advanced AI for diverse, high-quality audio generation.
9	**Scope Creep / Endless Iterations**	High	Medium	**Strict Production Schedule:** Adhere rigidly to the day-by-day plan. **Versioning Control:** Implement clear versioning for all generated assets. **Approval Gates:** Define specific points for stakeholder approval before moving to the next stage. **Budget Constraints:** Use budget as a hard limit for iterations.
10	**Hardware/Software Compatibility Issues**	Low	Medium	**Standardized Toolchain:** Use FilmForge's integrated and tested proprietary production suite. **Cloud-Based Solutions:** Minimize local hardware dependencies. **Regular Updates & Patches:** Ensure all software and AI models are up-to-date. **Technical Support:** Dedicated IT/DevOps support team.

18. GLOSSARY OF TERMS

- **AI Director:** The core FilmForge artificial intelligence responsible for overall creative vision and project management.
- **Aspect Ratio:** The proportional relationship between the width and height of an image or screen (e.g., 16:9, 9:16, 1:1).
- **Film Bible:** A comprehensive document outlining the creative, technical, and logistical details of a film project.

- FilmForge: The elite AI Film Director & Producer entity.
- GPP MKII: The Cinematographer AI module of FilmForge.
- Hallucination (AI): An output from an AI model that is fabricated or does not correspond to real-world facts or the given prompt, often appearing as visual inconsistencies or glitches.
- HLS (HTTP Live Streaming): An adaptive bitrate streaming protocol developed by Apple, commonly used for delivering media over the web.
- Kineticism: The quality of being dynamic and full of motion, often referring to a visually energetic style.
- LUT (Look Up Table): A file containing mathematical instructions to transform color values, used for color grading and applying specific visual styles.
- MP4 H.264: A widely used video compression format, known for good quality at relatively small file sizes.
- Photorealism: The artistic and technical quality of appearing indistinguishable from a photograph.
- ProRes 4444 XQ: A high-quality video codec developed by Apple, designed for post-production and offering excellent image fidelity and alpha channel support.
- Prompt Engineering: The process of carefully designing and refining text prompts to guide AI models to generate specific and desired outputs.
- Rec. 2020 PQ: A wide color gamut and perceptual quantizer electro-optical transfer function standard, used for high dynamic range (HDR) content.
- Runway/Veo/Sora/Omni/Pika/Luma/Kling: Various AI video generation platforms or services.
- Shot List: A detailed breakdown of every shot needed for a scene, including camera angle, size, movement, and description.
- Suno AI: An AI music generation platform.
- Temporal Consistency: The visual continuity and stability of elements (characters, objects, lighting) across multiple frames in a video sequence.
- VFX (Visual Effects): Digitally created or enhanced imagery added to live-action footage or fully generated scenes to create fantastical or otherwise impossible elements.
- Visual Signature: The distinct and recognizable style, aesthetic, and recurring visual motifs of a film or director.

DRAGON BALL SUPER × AVENGERS

FULL-PACE FIGHT — Expanded Production Pack

Confidential · Internal use only · GPP-Core Mk VII
Supplement to the master Production Bible: expanded shot lists and generation prompt packs for Scenes 1, 7, and 8.

- Scene 1 - Cosmic Rift Shot List
- Scene 7 - Climax Shot List
- Scene 7 - Generation Prompts
- Scene 8 - Aftermath Shot List
- Scene 8 - Generation Prompts

Scene 1 - Cosmic Rift Shot List

```
# Scene 1 – The Cosmic Rift
## Master Shot List (Complete)

| Field | Value |
| --- | --- |
| Scene # | 1 |
| Title | The Cosmic Rift |
| INT/EXT | EXT |
| Location | Void Between Dimensions |
| Time | Eternal Twilight |
| Characters | Goku (SSB), Vegeta (SSB), Thor, Captain Marvel |
| Emotional beat | Awe, tension, foreboding, readiness for conflict |
| Target runtime | 0:45 |
| Engine | Unreal Engine 5 |
| Aspect | 2.39:1 |
| Codec plate | ARRIRAW Open Gate 8K (ref) |

**Visual notes (from bible):** deep space `#0A0A1A` / `#1E1E2E`; nebula purples & blues; Goku aura
`#00F0FF`; Vegeta aura `#3366FF`; Thor lightning `#ADD8E6`/`#FFD700`; Captain Marvel `#FFD700`/`#FF4500`;
cosmic impacts `#FFFFFF`/`#FF00FF`/`#00FFFF`. Camera language: hyper-kinetic tracking, whip pans, snap
zooms, gravity-defying perspectives.

---

### Beat A – Nascent tear (0:00–0:08)

| # | Scene | Shot type | Lens (mm) | Movement | Dur (s) | Engine | Notes |
| --- | --- | --- | --- | --- | --- | --- | --- |
| 1.1 | 1 | ELS | 18 | Dolly in / crane up | 5 | UE5 | Cosmic void. Nascent dimensional tear as a hairline fracture of white-magenta light. Galactic dust drifts toward the seam. Deep purples & blues. No characters. |
| 1.2 | 1 | ELS → LS | 25 | Slow push + slight roll | 3 | UE5 | Tear widens. Debris (asteroid shards, frozen gas) accelerates into the rift. Volumetric god-rays through haze. Subtle lens flare from the tear's core. |

### Beat B – Dual arrival (0:08–0:20)

| # | Scene | Shot type | Lens (mm) | Movement | Dur (s) | Engine | Notes |
| --- | --- | --- | --- | --- | --- | --- | --- |
| 1.3 | 1 | LS | 24 | Whip pan L→R | 3 | UE5 | Goku & Vegeta materialize from a light-burst (Whis-teleport energy, gold-white). Backlit. Eyes narrow. SSB auras ignite on settle. |
| 1.4 | 1 | MS | 47 | Handheld micro-stabilize | 2 | UE5 | Vegeta's sneer; armor plates catch cyan rim light. He scans left, sensing foreign power. |
| 1.5 | 1 | LS | 24 | Whip pan R→L | 3 | UE5 | Thor (Stormbreaker) & Captain Marvel arrive through a Bifrost-tinged / photon streak. Opposing axis to 1.3. Cap's energy channels glow. |
| 1.6 | 1 | MS | 47 | Push in | 2 | UE5 | Thor's grip tightens on Stormbreaker; Mjolnir hum (if carried) or Stormbreaker arcs. Soft gold rim from Cap behind him. |
| 1.7 | 1 | CU | 125 | Snap zoom settle | 2 | UE5 | Captain Marvel's eyes: stern assessment. Binary glow builds under the skin of her cheekbones. Shallow DOF, tear bokeh behind. |

### Beat C – Power recognition (0:20–0:34)
```

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	Engine	Notes
1.8	1	MS	50	Push in	3	UE5	Goku's determined, wary face. SSB aura pulses `#00F0FF`. Ki sense – slight eye twitch toward Thor.
1.9	1	MS	50	Push in (match cut energy)	3	UE5	Thor's serious assessing gaze. Lightning micro-arcs on armor. Mutual recognition of "not ordinary foe."
1.10	1	OTS	75	Locked / subtle drift	2	UE5	Over Goku's shoulder: Thor & Cap silhouetted against the tear. Scale contrast – gods vs Saiyans across debris field.
1.11	1	OTS	75	Locked / subtle drift	2	UE5	Over Thor's shoulder: Goku & Vegeta, auras reading as alien energy signatures. Vegeta steps half a pace forward.
1.12	1	CU insert	150	Static	1.5	UE5	Extreme CU: Mjolnir / Stormbreaker head humming; dust vibrating off the metal.
1.13	1	CU insert	150	Static	1.5	UE5	Extreme CU: Goku's fist closes; knuckles flex; aura compresses tighter around the wrist.
1.14	1	MS	35	Crane orbit ¼ circle	3	UE5	Vegeta and Captain Marvel lock eyes across frame. Galick-ready stance vs photon stance. Tension without contact.

Beat D – Standoff hold (0:34–0:45)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	Engine	Notes
1.15	1	WS	35	Steadicam arc	5	UE5	Four figures in a tense, balanced diamond standoff amid cosmic debris. Tear behind them as a vertical wound of light. Auras and lightning rim-light each silhouette.
1.16	1	ELS	18	Slow dolly back	3	UE5	Pull to extreme wide: tiny figures vs vast void and expanding rift. Sound design cue: silence under a rising sub-bass. Foreshadow Scene 2.
1.17	1	ECU	150	Snap in / hold	2	UE5	Smash cut to Goku's eye (iris flare cyan) OR Thor's eye (storm reflection) – choose in edit; holds 2s then hard cut to Scene 2.
1.18	1	Buffer / safety	25	Locked plate	1	UE5	Clean plate of void + tear only (no heroes) for VFX / editorial coverage. Optional; not counted in dramatic runtime.

Timing roll-up (dramatic picture)

Beat	Shots	Approx. duration
A Nascent tear	1.1–1.2	8s
B Dual arrival	1.3–1.7	12s
C Power recognition	1.8–1.14	14s
D Standoff hold	1.15–1.17	10s
Total	**1.1–1.17**	**~44s** (+1.18 safety plate)

Continuity & VFX flags

- **Rift growth:**** tear width increases every beat (hairline → visible wound → vertical scar behind the diamond).
- **Axis:**** Universe 7 arrives screen-left; MCU arrives screen-right; keep 180° until Scene 2 first contact.
- **Aura vs lightning:**** SSB cyan/cobalt never reads as Cap binary gold/orange – color grade separation per bible hexes.
- **Debris:**** same asteroid field continuity; pieces drift toward tear in all wides.
- **No contact / no blast yet:**** Scene 1 is standoff only; first punch lives in Scene 2 (shot 2.1+).
- **Sound:**** windless void until 1.15; then layered ki hum + Asgardian thunder underhold into Scene 2 whip.

Coverage extras (optional pickups)

#	Shot type	Lens	Dur	Notes
1.A	High ELS top-down	18	3	God-view of diamond standoff; useful for trailer cutdowns.
1.B	Dutch angle WS	35	2	Reality already "wrong" – slight roll toward tear.
1.C	Macro CU rift edge	100 macro	2	Fractured spacetime texture for motion-graphics / title card.

Source: GPP-Core Mk VII production bible – Dragon Ball Super × Avengers – Full-Pace Fight. Scene 1 complete pass replaces partial master rows 1.1–1.6.

Scene 7 - Climax Shot List

Scene 7 – United Attack & Catastrophic Climax
Master Shot List (Complete)

Field	Value
Scene #	7
Title	United Attack & Catastrophic Climax
INT/EXT	EXT
Location	Heart of the Rift
Time	Eternal Twilight
Characters	Goku (SSB + Kaioken x20), Vegeta (SSB Evolved), Thor (Mjolnir + Stormbreaker), Captain Marvel (Binary), Hulk (Worldbreaker); antagonist: Aetherial Scourge
Support (bg / VFX)	Dimensional expulsion vortex (Strange/Whis continuity from Act III) – present as environment, not dialogue
Emotional beat	Desperation, ultimate power, self-sacrifice, explosive climax, universal stakes
Target runtime	2:00
Engine	Unreal Engine 5
Aspect	2.39:1
Frame rates	24fps base; 48–60fps for beam travel; up to 120fps for impact / transformation inserts
Codec plate	ARRIRAW Open Gate 8K (ref)

****Visual notes (from bible):**** Scourge = shifting dark energy, magenta/void black; Goku Kaioken overlay `#FF0000` on `#00F0FF`; Vegeta Evolved `#3366FF`/`#8A2BE2`; Thor `#ADD8E6`/`#FFD700`; Cap Binary `#FFD700`/`#FF4500`; Hulk `#008000`/`#32CD32`; combined impact `#FFFFFF` / `#FF00FF` / `#00FFFF`. Lighting: character auras as primary practicals; extreme backlight; volumetric haze. Camera: hyper-kinetic, gravity-defying, anime whip/snap language fused with photoreal VFX.

Beat A – Heart of the Rift / Scourge primed (0:00–0:15)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.1	7	ELS	18	Crane down into rift	4	24	Enter Heart of the Rift: impossible geometries, bleeding Asgard/Namek/Earth fragments. Scourge core as a pulsing void-star.
7.2	7	LS	25	Orbit clockwise slow	3	24	Scourge fully manifest – amorphous, tendrils anchoring to three collapsed dimensional scars. Sucks light.
7.3	7	WS	35	Push toward heroes	3	24	Five heroes in a loose arc facing the core. Exhausted but set. Vortex ring faintly opens behind Scourge (Strange/Whis work – silhouette only).
7.4	7	CU montage	125	Smash cuts x5	5	24	Rapid CU: Goku grit → Vegeta snarl → Thor roar → Cap Binary eyes → Hulk Worldbreaker snarl. 1s each. No words.

Beat B – Charge & formation (0:15–0:40)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.5	7	MS	47	Dolly circle Goku	4	24→48	Goku drops into stance; Kaioken x20 ignites over SSB – crimson veins through cyan aura. Heat shimmer.
7.6	7	MS	47	Dolly reverse Vegeta	3	24	Vegeta SSB Evolved: purple-cobalt flare; Final Flash charge builds between palms. Pride over fear.
7.7	7	LS	24	Crane up with Thor	4	48	Thor rises, dual-wield Mjolnir + Stormbreaker. Calls cosmic lightning – Bifrost-tinged storm column.
7.8	7	MS → CU	75→150	Push to Cap	3	24	Captain Marvel goes full Binary – body becomes gold/orange light. Photonic corona expands.
7.9	7	LS	35	Low angle up at Hulk	3	24	Worldbreaker Hulk plants feet on a crystalline shard; ground fractures in green shock-rings. Thunderclap wind-up.
7.10	7	WS	25	Steadicam arc wide	4	24	All five charging simultaneously; color-coded auras paint the rift. Scourge recoils, tendrils bristling.
7.11	7	ECU	150	Static	2	120	Extreme slow: Goku's pupils shrink; Kaioken flicker frame-by-frame.
7.12	7	ECU	150	Static	2	120	Extreme slow: Stormbreaker edge sparks; Cap's iris floods gold.

Beat C – Unleash (individual signatures) (0:40–1:10)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.13	7	MS	50	Handheld track with beam	4	60	Goku: Super Kamehameha (Kaioken-boosted) – wide cyan-crimson beam. Camera rides beside the beam.
7.14	7	MS	50	Parallel track	3	60	Vegeta: Final Flash – gold-white lance, tighter than

Kamehameha, faster travel. |
7.15	7	LS	24	Whip pan into Thor	4	48	Thor: dual-weapon overhead strike → projected lightning spear into Scourge. Sonic boom rings.
7.16	7	LS	35	Dolly in Binary flight	4	60	Cap flies beam-path, continuous photon output as a solid column of gold-orange.
7.17	7	MS	47	Crash-in on clap	3	120	Hulk thunderclap: shockwave visualized as green concentric rings + debris hurricane. Play at 24 for weight.
7.18	7	ELS	18	Locked / micro push	5	24	All five attacks visible as converging vectors toward Scourge core. Scale shot – heroes tiny, beams planetary.
7.19	7	CU	85	Snap zoom Scourge	3	24	Scourge “face” (shifting voids) absorbs first contact – cracks of white light appear in its mass.
7.20	7	Insert / split	35	Intercut 4×0.5s	2	48	Heroes straining: arms shaking, auras spiking, teeth clenched.

Beat D – Convergence & beam struggle (1:10–1:40)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.21	7	WS	35	Orbit 180°	5	24	Beams braid into a single multicolor spear (cyan/crimson/cobalt/gold/green/lightning). Classic anime “clash” geometry, photoreal materials.
7.22	7	MS	75	Push along braid	4	60	Ride the combined beam toward Scourge; chromatic aberration spikes at energy seams.
7.23	7	CU	100	Handheld chaos (controlled)	3	24	Impact face: Scourge vs braid – push/pull. Inch-by-inch toward expulsion vortex.
7.24	7	OTS	50	Locked	3	24	Over Goku/Vegeta: seeing Cap + Thor + Hulk contribute from flanks – true alliance visual.
7.25	7	ELS	18	Dutch roll toward tear	4	24	Reality buckling: Heart of the Rift folding; debris orbits the struggle like a galaxy.
7.26	7	CU montage	125	Smash ×4	4	120	Desperation inserts (0.8–1s each @120 played slow): Goku Kaioken veins; Vegeta blood-tear pride; Thor scream; Cap Binary flare overload.
7.27	7	LS	24	Crash zoom out	3	24	Scourge surges – dark tendril tries to drag heroes into void. Heroes dig in; combined output spikes blinding white.
7.28	7	ECU	150	Static	2	120	Point of contact: white core forming – “weak point” from treatment. Hold.
7.29	7	WS	25	Dolly rush toward core	2	48	All power commits – no reserve left. Screen fills with light.

Beat E – Cataclysm & expulsion (1:40–1:55)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.30	7	ELS	12–18	Locked plate → shake	4	24	Cataclysmic explosion: Scourge ripped apart into the expulsion vortex. White-out with magenta shock-rings. Planetary debris blasted outward.
7.31	7	Abstract	–	Optical / CG only	3	24	Pure energy field: no horizon. Silhouettes of five heroes briefly readable inside the blast, then lost.
7.32	7	LS	35	Whip through debris	3	60	Scourge remnants sucked into vortex; vortex snaps shut with a silent compression (sound design: vacuum pop).
7.33	7	ELS	18	Slow pull back	3	24	Heart of the Rift collapsing; light dying to eternal twilight. End on almost-black with residual cyan/gold sparks. Hard cut → Scene 8.
7.34	7	Buffer / safety	25	Locked	2	24	Clean plates: (a) Scourge hero-less, (b) empty Heart, (c) pure white flash – editorial/VFX. Not in dramatic runtime.

Beat F – Editorial bridge (optional 1:55–2:00)

#	Scene	Shot type	Lens (mm)	Movement	Dur (s)	FPS	Notes
7.35	7	Black	–	Hold	2	24	2s black / ringing silence before Scene 8 aftermath – recommended cut point.
7.36	7	ECU eye	150	Fade up from black	3	24	Optional open-to-8: Goku’s eye opens (base form, injured) – only if editor wants Scene 7 to own the first aftermath frame. Else leave for 8.1.

Timing roll-up (dramatic picture)

Beat	Shots	Approx. duration
A Heart / primed	7.1–7.4	15s
B Charge & formation	7.5–7.12	25s
C Unleash signatures	7.13–7.20	30s
D Convergence / struggle	7.21–7.29	30s
E Cataclysm / expulsion	7.30–7.33	13s
F Bridge / black	7.35 (±7.36)	2–5s
Total	**7.1–7.33 + 7.35**	**~115–120s**

Attack order (picture continuity)

1. Goku Super Kamehameha (Kaioken x20)
2. Vegeta Final Flash (overlap +0.5s)
3. Thor dual-weapon lightning spear
4. Captain Marvel Binary column
5. Hulk thunderclap shockwave (last – clears debris path / adds green ring into the braid)
6. Braid lock → push Scourge into Strange/Whis vortex → white-out

Continuity & VFX flags

1. ****No dialogue**** in Scene 7 picture cut – emotional beat is pure performance + power.
2. ****Kaioken x20**** must read as crimson lattice **over** SSB cyan; never replace cyan entirely.
3. ****Dual Thor weapons**** both on-screen in 7.7 and 7.15; lightning color `#ADD8E6` + gold accents.
4. ****Binary Cap**** is a light-source practical for everyone in frame during Beat C–D.
5. ****Scourge damage language:**** absorb → crack white → braid push → shred into vortex (never a simple “HP bar” explode).
6. ****Vortex:**** present from 7.3 as faint ring; only fully active in Beat E – matches Act III Strange/Whis expulsion.
7. ****Axis:**** heroes hold a shallow arc screen-left/center; Scourge + vortex screen-right/deep – preserve until white-out.
8. ****120fps inserts**** (7.11, 7.12, 7.17, 7.26, 7.28) are mandatory for trailer & impact clarity.
9. ****Sound:**** build sub-bass under Beat B; full orchestra + choir hit on 7.21 braid; near-silence on 7.32 vortex snap; true silence on 7.35.
10. ****Scene 8 handoff:**** heroes injured/base forms live in Scene 8 – do not resolve character status inside 7 except as silhouettes in the blast.

Coverage extras (optional pickups)

#	Shot type	Lens	Dur	Notes
---	---	---	---	---
7.A	Top-down ELS	18	4	God-view of five beams + Scourge – trailer hero plate.
7.B	Macro CU braid	100 macro	2	Energy filament detail for motion graphics / title sting.
7.C	Reverse POV Scourge	24	3	Looking “out” at heroes through void-distortion – horror beat.
7.D	Hulk feet insert	85	1.5	Crystalline shard exploding under Worldbreaker stance.
7.E	Cap hand ECU	150	1.5	Photons leaving palm as solid geometry.

Source: GPP-Core Mk VII production bible – Dragon Ball Super × Avengers – Full-Pace Fight. Scene 7 complete pass; aligns Scene 7 summary (2:00) with Act III climax mechanics (combined assault + expulsion vortex).

Scene 7 - Generation Prompts

```
# Scene 7 – Key Stills Generation Pack (Complete)
## GPP-Core Mk VII · Dragon Ball Super × Avengers – Full-Pace Fight

| Field | Value |
| --- | --- |
| Scene | 7 – United Attack & Catastrophic Climax |
| Aspect | 2.39:1 (generate at 16:9, crop to scope in post) |
| Look | Photoreal cinematic VFX + anime kineticism; Unreal Engine 5 quality; ARRIRAW-grade color depth |
| Negative (global) | text, watermark, logo, UI, comic panel borders, low-res, blurry faces, extra limbs,
deformed hands, childish cartoon flat shading |

### Global style block (append to every prompt)

...

Cinematic still from an epic sci-fi superhero martial-arts crossover film, 2.39:1 anamorphic scope framing,
photoreal VFX fused with anime kinetic energy, extreme dynamic lighting, volumetric god-rays and haze, deep
space near-black #0A0A1A and deep violet-blue #1E1E2E, high contrast hard key light, aura and energy blasts
as practical light sources, Unreal Engine 5 cinematic render, IMAX-quality detail, no text, no watermark
...

### Color locks

| Element | Hex |
| --- | --- |
| Goku SSB / Kaioken | `#00F0FF` + `#FF0000` lattice |
| Vegeta SSB Evolved | `#3366FF` + `#8A2BE2` |
| Thor lightning | `#ADD8E6` + `#FFD700` |
| Cap Binary | `#FFD700` + `#FF4500` |
| Hulk | `#008000` + `#32CD32` |
| Cosmic impact | `#FFFFFF` `#FF00FF` `#00FFFF` |
| Scourge | void black + magenta bleed |

---

## KEY STILL PROMPTS

### KS-7.01 – Heart of the Rift / Scourge primed
**Maps to:** 7.1–7.2 · Beat A
**Camera:** ELS 18mm, crane-down energy

...

Extreme long shot looking down into the Heart of an interdimensional rift: impossible fractured geometries,
bleeding fragments of alien cityscapes and planetary crust floating in a void, at center a colossal
amorphous Aetherial Scourge as a pulsing void-star of dark swirling energy with magenta edges, tendrils
anchoring into dimensional scars, sucking light from the scene, cosmic debris orbiting inward, [GLOBAL STYLE
BLOCK]
...

### KS-7.02 – Five heroes formation
**Maps to:** 7.3 · Beat A
**Camera:** WS 35mm push

...

Wide cinematic shot of five exhausted but resolute warriors in a shallow arc facing a dark cosmic entity:
left-to-right a spiky-haired Saiyan in orange gi with electric cyan aura, a shorter proud Saiyan in sleek
dark-blue armor with cobalt-purple aura, a towering Asgardian god in ornate blue-silver-gold armor dual-
wielding a hammer and a glowing axe, a female cosmic hero in dark blue red gold suit glowing gold-orange
Binary energy, and a colossal green Worldbreaker Hulk, behind them a faint circular dimensional expulsion
vortex ring, Heart of the Rift environment, [GLOBAL STYLE BLOCK]
...

### KS-7.03 – Hero resolve montage plate
**Maps to:** 7.4 · Beat A
**Camera:** CU 125mm (composite plate or 5-panel strip)

...

Ultra-close cinematic portrait montage energy: five intense faces side by side in one epic still as if
smash-cut frames – determined Saiyan fighter with cyan aura rim light, arrogant Saiyan prince snarling with
purple-cobalt light, roaring Asgardian with lightning reflections in eyes, stern Binary-powered woman with
gold glow under cheekbones, Worldbreaker Hulk snarl with emerald rim – shallow depth of field, [GLOBAL STYLE
```

BLOCK]

```

### KS-7.04 – Goku Kaioken x20 charge

\*\*Maps to:\*\* 7.5 / 7.11 · Beat B

\*\*Camera:\*\* MS 47mm dolly circle

```

Medium shot of Super Saiyan Blue Goku mid-charge: muscular fighter in battle-worn orange gi, spiky glowing cyan hair, electric blue aura #00F0FF with intense crimson Kaioken x20 lattice veins of red energy crawling over the cyan, heat shimmer, fists drawn back for a Kamehameha, face gritted and determined, Heart of the Rift debris bokeh behind, hard directional key, [GLOBAL STYLE BLOCK]

```

### KS-7.05 – Vegeta Final Flash wind-up

\*\*Maps to:\*\* 7.6 · Beat B

\*\*Camera:\*\* MS 47mm

```

Medium shot of Super Saiyan Blue Evolved Vegeta: shorter hyper-muscular Saiyan prince in sleek futuristic dark-blue armor white gloves boots, upright spiky glowing hair, cobalt blue #3366FF and amethyst purple #8A2BE2 aura flaring, palms apart charging a gold-white Final Flash lance of energy, proud snarl, battle scars on armor, rift chaos behind, [GLOBAL STYLE BLOCK]

```

### KS-7.06 – Thor dual-weapon storm

\*\*Maps to:\*\* 7.7 / 7.15 · Beat B–C

\*\*Camera:\*\* LS 24mm crane up

```

Long shot of Thor Odinson rising in battle: towering muscular Asgardian, long golden-blond hair, ornate deep-blue silver gold Asgardian armor with red cape, dual-wielding Mjolnir and Stormbreaker both crackling with light-blue #ADD8E6 and gold #FFD700 lightning, calling a Bifrost-tinged storm column from the void, low angle heroic, volumetric lightning bolts, [GLOBAL STYLE BLOCK]

```

### KS-7.07 – Captain Marvel Binary

\*\*Maps to:\*\* 7.8 / 7.16 · Beat B–C

\*\*Camera:\*\* MS–CU 75–150mm

```

Cinematic medium-close of Captain Marvel in full Binary form: athletic woman, short blonde hair, dark-blue red gold Kree Starforce suit with glowing energy channels, entire body radiating gold #FFD700 and orange-red #FF4500 photonic corona, eyes blazing, flying forward as a solid column of light begins to form from her palms, she is the practical light source illuminating cosmic debris, [GLOBAL STYLE BLOCK]

```

### KS-7.08 – Hulk Worldbreaker thunderclap

\*\*Maps to:\*\* 7.9 / 7.17 · Beat B–C

\*\*Camera:\*\* LS 35mm low angle + clap insert energy

```

Low-angle long shot of Worldbreaker Hulk: colossal intensely muscular green giant, tattered durable pants, feet planted on a cracking crystalline cosmic shard sending emerald #008000 and lime #32CD32 shock-rings through the ground, mid thunderclap with palms about to collide, hurricane of debris blasting outward, rage controlled and immense, Heart of the Rift verticality, [GLOBAL STYLE BLOCK]

```

### KS-7.09 – Signature beams unleashed (suite plate)

\*\*Maps to:\*\* 7.13–7.17 · Beat C

\*\*Camera:\*\* ELS composite energy

```

Epic wide still showing five simultaneous signature attacks mid-flight toward a dark void entity: a wide cyan-crimson Kamehameha beam, a tighter gold-white Final Flash lance, a projected lightning spear from dual Asgardian weapons, a solid gold-orange Binary photon column, and green concentric thunderclap shockwave rings, all racing across the Heart of the Rift, motion-blur energy trails, [GLOBAL STYLE BLOCK]

```

### KS-7.10 – Planetary convergence ELS

\*\*Maps to:\*\* 7.18 · Beat C

\*\*Camera:\*\* ELS 18mm locked

```

Extreme long shot of planetary scale: five tiny silhouetted heroes far below, five massive colored energy

vectors converging on a colossal dark Scourge core in the Heart of an interdimensional rift, shattered planet fragments and nebula gas, blinding white magenta cyan impact blooms beginning at contact, sense of cosmic scale and doom, [GLOBAL STYLE BLOCK]
 ```

### KS-7.11 – Scourge cracks under first contact  
 \*\*Maps to:\*\* 7.19 · Beat C  
 \*\*Camera:\*\* CU 85mm snap zoom  
 ```

Close-up of the Aetherial Scourge mass: amorphous shifting void-black energy with magenta bleed, a semi-face of swirling absences, first contact of multicolor beams causing bright white cracks spiderwebbing through its body, absorbing and straining, oppressive horror beauty, extreme detail on energy texture, [GLOBAL STYLE BLOCK]
 ```

### KS-7.12 – Braid lock (hero plate)  
 \*\*Maps to:\*\* 7.21–7.22 · Beat D  
 \*\*Camera:\*\* WS 35mm orbit  
 ```

Wide cinematic climax still: five heroes' attacks braided into one multicolor energy spear – cyan, crimson, cobalt, gold, green, lightning white – locked against a dark void entity, classic anime beam-clash geometry rendered with photoreal materials and volumetric light, heroes silhouetted at the base of the braid, reality buckling around them, [GLOBAL STYLE BLOCK]
 ```

### KS-7.13 – Desperation push  
 \*\*Maps to:\*\* 7.23 / 7.26 · Beat D  
 \*\*Camera:\*\* CU handheld controlled chaos  
 ```

Intense close cinematic still of the beam struggle impact face: heroes straining at the edge of collapse, arms shaking, auras spiking violently, teeth clenched, Kaioken red veins, Binary overload flare, Asgardian roar, Hulk emerald fury, the combined braid inching a dark Scourge toward a glowing dimensional expulsion vortex, dust and sparks, [GLOBAL STYLE BLOCK]
 ```

### KS-7.14 – Weak-point white core  
 \*\*Maps to:\*\* 7.28–7.29 · Beat D  
 \*\*Camera:\*\* ECU 150mm @120fps feel  
 ```

Extreme close-up of the point of contact: a forming blinding white weak-point core where braided multicolor energy meets void-black Scourge matter, magenta and cyan filaments peeling away, hyper-detailed energy particles frozen mid-explosion, almost abstract, pure power, [GLOBAL STYLE BLOCK]
 ```

### KS-7.15 – Cataclysm expulsion  
 \*\*Maps to:\*\* 7.30–7.32 · Beat E  
 \*\*Camera:\*\* ELS 12–18mm  
 ```

Extreme long shot cataclysm: the Aetherial Scourge ripped apart and sucked into a precise multi-dimensional expulsion vortex, white-out explosion with magenta shock-rings, planetary debris blasted outward, five faint hero silhouettes briefly readable inside the blast then lost, vortex compressing shut, Heart of the Rift collapsing, apocalyptic awe, [GLOBAL STYLE BLOCK]
 ```

### KS-7.16 – Aftermath spark / bridge to Scene 8  
 \*\*Maps to:\*\* 7.33 / 7.35 · Beat E–F  
 \*\*Camera:\*\* ELS 18mm slow pull  
 ```

Quiet extreme long shot after the blast: Heart of the Rift collapsing into eternal twilight near-black #0A0A1A, residual cyan and gold sparks drifting like dying embers, no clear figures, ringing silence visual, fragile peace after cosmic violence, cinematic negative space, [GLOBAL STYLE BLOCK]
 ```

---

## TRAILER CUTDOWN SET (priority render order)

1. KS-7.12 Braid lock
2. KS-7.15 Cataclysm expulsion

3. KS-7.02 Five heroes formation
4. KS-7.10 Planetary convergence
5. KS-7.04 Goku Kaioken
6. KS-7.06 Thor storm
7. KS-7.07 Cap Binary
8. KS-7.08 Hulk thunderclap
9. KS-7.01 Scourge primed
10. KS-7.16 Aftermath spark

#### ## Midjourney / Flux / SDXL usage notes

- Append `--ar 21:9` or `--ar 16:9` (crop to 2.39 in Resolve).
- Weight character identity moderately; prioritize lighting + energy readability.
- Seed-lock within a beat for continuity (same seed family for KS-7.04 through KS-7.08).
- Upscale 2× then light film grain; match bible grade (saturated energy, deep shadows).

## Scene 8 - Aftermath Shot List

# Scene 8 – Aftermath & Uncertain Future

## Master Shot List (Complete)

| Field | Value |  
 | --- | --- |  
 | Scene # | 8 |  
 | Title | Aftermath & Uncertain Future |  
 | INT/EXT | EXT |  
 | Location | Vanishing Rift |  
 | Time | Eternal Twilight |  
 | Characters | Goku (base, injured), Vegeta (base, injured), Thor (injured), Captain Marvel (injured), Hulk → Banner (unconscious) |  
 | Emotional beat | Exhaustion, mutual respect, relief, wonder, fragile peace, lingering tension |  
 | Target runtime | 0:45 |  
 | Continuity in | Hard cut from Scene 7.35 black / 7.33 residual sparks |  
 | Engine | Unreal Engine 5 |  
 | Aspect | 2.39:1 |  
 | Frame rates | 24fps throughout (no hype FPS – aftermath is weight and breath) |  
 | Codec plate | ARRIRAW Open Gate 8K (ref) |

**\*\*Visual notes (from bible):\*\*** near-black `#0A0A1A` / deep violet-blue `#1E1E2E`; residual cyan `#00F0FF` and gold `#FFD700` embers from Scene 7; auras **\*\*off\*\*** (base forms); Cap Binary extinguished; Stormbreaker/Mjolnir dim; Hulk reversion to Banner mid-scene. Lighting: soft low-key, smoke/haze, almost silent sound design under picture. Camera: slow, deliberate, intimate after the hyper-kinetic climax – Deakins-adjacent restraint.

---

### Beat A – Silence after white-out (0:00–0:10)

| #   | Scene | Shot type   | Lens (mm) | Movement               | Dur (s) | Notes                                                                                                                                  |
|-----|-------|-------------|-----------|------------------------|---------|----------------------------------------------------------------------------------------------------------------------------------------|
| 8.1 | 8     | Black → ELS | 18        | Locked / micro fade-up | 3       | Fade up from Scene 7 black. Vanishing Rift: dying sparks, debris settling in microgravity. No music swell yet – only ringing silence.  |
| 8.2 | 8     | ELS         | 25        | Very slow dolly back   | 4       | Wide: five battered figures scattered on a fractured shard. Rift wound closing like a zipper of light behind them. Scale of aftermath. |
| 8.3 | 8     | WS          | 35        | Locked                 | 3       | Smoke clears. Forms readable: orange gi, Saiyan armor, Asgardian, Cap suit (no Binary), purple pants (Hulk mid-shrink).                |

### Beat B – Bodies & cost (0:10–0:24)

| #   | Scene | Shot type | Lens (mm) | Movement            | Dur (s) | Notes                                                                                                                                                       |
|-----|-------|-----------|-----------|---------------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.4 | 8     | MS        | 50        | Slow push           | 3       | Goku base form, kneeling then rising on one knee. Gi torn, singe marks, blood at lip. No aura. Breath visible as vapor in cold void air.                    |
| 8.5 | 8     | MS        | 50        | Slow push (match)   | 3       | Vegeta base form, standing but swaying. Armor cracked. Pride intact – he refuses to kneel. Eye flick toward Goku: rivalry still alive, softer.              |
| 8.6 | 8     | MS        | 47        | Handheld micro-stab | 3       | Thor: cape shredded, armor scored. Stormbreaker planted like a cane. Exhale. Weight of another cosmic war.                                                  |
| 8.7 | 8     | MS        | 47        | Slow lateral        | 2       | Captain Marvel: Binary gone. Suit scorched. She looks at her hands – empty of light – then at the closing rift. Relief + unfinished duty.                   |
| 8.8 | 8     | CU → MS   | 85→50     | Pull out            | 3       | Hulk shrinking to Banner: green drains, body collapses. Cap or Thor (whichever closest) steps half a pace – no dialogue, just presence. Banner unconscious. |

### Beat C – Mutual recognition (0:24–0:38)

| #    | Scene | Shot type   | Lens (mm) | Movement   | Dur (s) | Notes                                                                                                                                        |
|------|-------|-------------|-----------|------------|---------|----------------------------------------------------------------------------------------------------------------------------------------------|
| 8.9  | 8     | OTS         | 75        | Locked     | 3       | Over Goku's shoulder: Thor across the shard. Eye contact. New respect without words.                                                         |
| 8.10 | 8     | OTS         | 75        | Locked     | 3       | Over Thor's shoulder: Goku. Almost-friendly nod begins (bible beat). Vegeta in soft background, arms crossed, acknowledging without smiling. |
| 8.11 | 8     | ECU         | 150       | Static     | 2       | Goku's nod completes – small, tired, sincere.                                                                                                |
| 8.12 | 8     | ECU         | 150       | Static     | 2       | Thor's return nod – regal, brief. Shared understanding of “we could have destroyed each other.”                                              |
| 8.13 | 8     | MS two-shot | 50        | Subtle arc | 4       | Cap and Vegeta share a glance: warrior-to-warrior. Cap's chin tip; Vegeta's scoff that is almost respect.                                    |

### Beat D – Separation & uncertain future (0:38–0:45)

| #    | Scene | Shot type        | Lens (mm) | Movement                      | Dur (s) | Notes                                                                                                                                                 |
|------|-------|------------------|-----------|-------------------------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.14 | 8     | WS               | 35        | Slow push toward closing rift | 3       | Rift seals to a hairline, then nothing. Universes begin to pull apart – shard cracks along a glowing seam (MCU side / Universe 7 side).               |
| 8.15 | 8     | ELS              | 18        | Dolly back + slight rise      | 3       | Heroes split across the seam as realities restore. Fleeting acknowledgment across the gap (bible Act III). Then each side dissolves to their own sky. |
| 8.16 | 8     | Hold / title air | 25        | Locked                        | 1       | Optional last frame: empty twilight where the rift was – one cyan spark, one gold spark, extinguish. Cut to black / end card.                         |
| 8.17 | 8     | Buffer / safety  | 25        | Locked                        | 2       | Clean plates: (a) empty Vanishing Rift, (b) Banner unconscious alone, (c) sealed sky with no heroes. Not in dramatic runtime.                         |

---

### ### Timing roll-up (dramatic picture)

| Beat                      | Shots               | Approx. duration |
|---------------------------|---------------------|------------------|
| A Silence after white-out | 8.1–8.3             | 10s              |
| B Bodies & cost           | 8.4–8.8             | 14s              |
| C Mutual recognition      | 8.9–8.13            | 14s              |
| D Separation & future     | 8.14–8.16           | 7s               |
| <b>**Total**</b>          | <b>**8.1–8.16**</b> | <b>**~45s**</b>  |

### ### Continuity & VFX flags

- \*\*No dialogue\*\*** – Scene 8 is pure look / breath / nod (matches Scene 7 silence language).
- \*\*Power state:\*\*** all auras off; Cap not Binary; Goku/Vegeta black hair base; Hulk → Banner completes by 8.8.
- \*\*Injury readable but not gore\*\*** – singe, tears, blood at lip, cracked armor.
- \*\*Axis handoff from Scene 7:\*\*** heroes were arc facing Scourge screen-right; aftermath redistributes them on a shared shard, then splits MCU (screen-right fade) vs Universe 7 (screen-left fade).
- \*\*Rift:\*\*** only closes in Beat D; keep it visible and dying through Beats A–C for geographic continuity with 7.33.
- \*\*Sound:\*\*** near-silence → distant debris ticks → single low string on Goku/Thor nod → vacuum whoosh on seam split → true silence on 8.16.
- \*\*Do not\*\*** reopen fight energy, Instant Transmission flourishes, or Binary flare – aftermath stays grounded.
- \*\*Banner care:\*\*** Cap or Thor proximity only; no medical dialogue; unconscious status holds into credits world.

### ### Coverage extras (optional pickups)

| #   | Shot type                    | Lens | Dur | Notes                                                                           |
|-----|------------------------------|------|-----|---------------------------------------------------------------------------------|
| 8.A | High ELS top-down            | 18   | 3   | God-view of five spent bodies on the shard – trailer “cost of victory” plate.   |
| 8.B | Insert Stormbreaker          | 100  | 1.5 | Weapon planted, lightning dead – power spent.                                   |
| 8.C | Insert Goku fist unclenching | 150  | 1.5 | Softens warrior stance into peace.                                              |
| 8.D | Reverse across gap           | 75   | 2   | Each universe’s sky (Earth dusk / Beerus-planet stars) for the separation beat. |

---

\*Source: GPP-Core Mk VII production bible – Dragon Ball Super × Avengers – Full-Pace Fight. Scene 8 complete pass; aligns Scene 8 summary (0:45) with Act III aftermath (silent acknowledgment, realities separate, uncertain future).\*

## Scene 8 - Generation Prompts

```
Scene 8 – Key Stills Generation Pack (Complete)
GPP-Core Mk VII · Dragon Ball Super × Avengers – Full-Pace Fight

Field	Value
Scene	8 – Aftermath & Uncertain Future
Aspect	2.39:1 (generate 16:9, crop to scope in post)
Look	Photoreal cinematic; quiet aftermath after hyper-kinetic climax; soft low-key; auras OFF; Unreal Engine 5
Negative (global)	text, watermark, logo, UI, glowing power auras, Binary form, Super Saiyan hair, fight poses, extra limbs, low-res

Global style block (append to every prompt)

...

Cinematic still from an epic sci-fi superhero martial-arts crossover film, aftermath beat, 2.39:1 anamorphic scope framing, photoreal VFX, soft low-key lighting, volumetric haze and smoke, deep space near-black #0A0A1A and deep violet-blue #1E1E2E, residual cyan #00F0FF and gold #FFD700 embers only, no character power auras, exhausted wounded heroes, Unreal Engine 5 cinematic render, IMAX-quality detail, quiet emotional weight, no text, no watermark
...

KEY STILL PROMPTS

KS-8.01 – Silence after white-out
Maps to: 8.1–8.2 · Beat A

...

Extreme long shot of a vanishing interdimensional rift after a cosmic battle: dying cyan and gold sparks, debris settling in microgravity, five tiny battered silhouettes on a fractured cosmic shard, the rift wound closing like a zipper of light, ringing silence visual, [GLOBAL STYLE BLOCK]
...

KS-8.02 – Five spent on the shard
Maps to: 8.3 · Beat A

...

Wide cinematic shot of five exhausted wounded warriors on a cracked floating shard in eternal twilight: orange-gi martial artist black hair base form, shorter armored Saiyan prince black hair, towering blond Asgardian with shredded red cape, athletic woman in scorched dark-blue red gold suit without energy glow, colossal green giant mid-shrink toward a smaller human form, smoke clearing, [GLOBAL STYLE BLOCK]
...

KS-8.03 – Goku base, injured
Maps to: 8.4 · Beat B

...

Medium shot of base-form Goku after battle: black spiky hair not glowing, battle-worn torn orange gi with singe marks, blood at lip, rising on one knee, no aura, breath as vapor in cold void air, exhausted but alive, Heart of the Rift debris soft bokeh, [GLOBAL STYLE BLOCK]
...

KS-8.04 – Vegeta base, pride unbroken
Maps to: 8.5 · Beat B

...

Medium shot of base-form Vegeta after battle: black upright spiky hair, cracked dark-blue Saiyan armor, standing but swaying, refuses to kneel, no aura, proud exhausted snarl softening, [GLOBAL STYLE BLOCK]
...

KS-8.05 – Thor spent
Maps to: 8.6 · Beat B

...

Medium shot of Thor after cosmic war: long golden-blond hair, ornate blue-silver-gold armor scored and battered, shredded red cape, Stormbreaker planted like a cane, no lightning, heavy exhale, low-key rim light, [GLOBAL STYLE BLOCK]
...
```

### ### KS-8.06 – Cap without Binary

\*\*Maps to:\*\* 8.7 · Beat B

...

Medium shot of Captain Marvel after Binary ends: short blonde hair, scorched dark-blue red gold suit, no photonic corona, looking at empty hands then toward a closing dimensional rift, relief and unfinished duty, soft practical light only, [GLOBAL STYLE BLOCK]

...

### ### KS-8.07 – Hulk reverts to Banner

\*\*Maps to:\*\* 8.8 · Beat B

...

Cinematic medium shot of Hulk shrinking into unconscious Bruce Banner: green draining from skin, body collapsing on a crystalline shard, nearby a battered blond Asgardian or cosmic hero stepping half a pace closer in silent care, no dialogue energy, [GLOBAL STYLE BLOCK]

...

### ### KS-8.08 – Goku ↔ Thor nod

\*\*Maps to:\*\* 8.9–8.12 · Beat C

...

Over-the-shoulder cinematic two-shot across a shattered cosmic shard: exhausted base-form martial artist in torn orange gi and a battered Asgardian god locking eyes, almost-friendly tired nods of mutual respect, no auras, quiet aftermath, shallow depth of field, [GLOBAL STYLE BLOCK]

...

### ### KS-8.09 – Cap ↔ Vegeta glance

\*\*Maps to:\*\* 8.13 · Beat C

...

Medium two-shot: scorched cosmic hero woman without Binary glow and proud Saiyan prince in cracked armor sharing a warrior-to-warrior glance, her chin tip, his almost-respectful scoff, exhausted, no energy auras, [GLOBAL STYLE BLOCK]

...

### ### KS-8.10 – Realities separate

\*\*Maps to:\*\* 8.14–8.15 · Beat D

...

Extreme long shot of a glowing seam cracking a cosmic shard in two as universes pull apart: battered heroes splitting to opposite sides, fleeting acknowledgment across the gap, each side dissolving toward different skies – Earth dusk one side, alien starfield the other – closing rift gone, [GLOBAL STYLE BLOCK]

...

### ### KS-8.11 – Empty twilight bridge

\*\*Maps to:\*\* 8.16 · Beat D

...

Quiet extreme long shot of empty eternal twilight where an interdimensional rift used to be: vast negative space, one dying cyan spark and one dying gold spark extinguishing, fragile peace after cosmic violence, cinematic stillness, [GLOBAL STYLE BLOCK]

...

### ### KS-8.12 – Cost of victory (trailer plate)

\*\*Maps to:\*\* 8.A pickup

...

High extreme long top-down god-view of five spent bodies on a fractured cosmic shard after battle, smoke and residual embers, no power glows, trailer “cost of victory” plate, [GLOBAL STYLE BLOCK]

...

---

### ## TRAILER CUTDOWN SET (priority render order)

1. KS-8.08 Goku ↔ Thor nod
2. KS-8.01 Silence after white-out
3. KS-8.10 Realities separate
4. KS-8.02 Five spent on the shard
5. KS-8.11 Empty twilight
6. KS-8.03 / 8.05 hero cost close-ups
